2. *Our financial performance is particularly vulnerable to interest rate volatility. If we are unable to manage interest rate risk in the future it could have an adverse effect on our net interest margin, thereby adversely affecting business and financial condition of our Company.*

We are engaged in the lending business. Our results of operations are substantially dependent upon the level of our Net Interest Margins. Interest income from our financing activities is the largest component of our total revenue, and constituted 50.41%, 88.75%, 96.69% and 96.77%, of our total revenue for the period ended July 31, 2023, Financial Year 2023, Financial Year 2022 and Financial Year 2021, respectively. As of July 31, 2023, March 31, 2023, March 31, 2022 and March 31, 2021, our loan book was ₹ 1507.17 Lakhs, ₹ 1461.18 Lakhs, ₹ 842.19 Lakhs and ₹ 262.78 Lakhs, respectively. We lend funds on fixed rates and borrow on variable rate basis. Volatility in interest rates can materially and adversely affect our financial performance. In a rising interest rate environment, if the yield on our interest-earning assets does not increase simultaneously with or to the same extent as our cost of funds, or, in a declining interest rate environment, if our cost of funds does not decline simultaneously or to the same extent as the yield on our interest-earning assets, our net interest income and net interest margin would be adversely impacted.

Accordingly, our operations are susceptible to fluctuations in interest rates. Interest rates are highly sensitive and fluctuations thereof are dependent upon many factors which are beyond our control, including the monetary policies of the RBI, de-regulation of the financial services sector in India, domestic and international economic and political conditions, inflation and other factors. Rise in inflation, and consequent changes in bank rates, repo rates and reverse repo rates by the RBI have led to an increase in interest rates on loans provided by banks and financial institutions, and market interest rates in India have been volatile in recent periods.

We do not hedge our exposure to interest rate changes except for external commercial borrowings. We cannot assure you that we can adequately manage our interest rate risk in the future. Further, changes in interest rates could affect the interest rates charged on interest earning assets and the interest rates paid on interest bearing liabilities in different ways except for external commercial borrowings wherein the Company has fully hedged its interest rate exposure through Cross-currency interest rate swaps. Thus, our results of operations could be affected by changes in interest rates and the timing of any re-pricing of our liabilities compared with the repricing of our assets.

3. *Our technology-driven underwriting, risk management and collection processes may not be able to effectively identify, monitor or mitigate the risks in our lending operations.*

We fine-tune our underwriting, risk management and collection processes through continuous training of our risk-detection algorithms/models. If any of these decision-making systems contain programming or other errors, the criteria or parameters we use for the analysis of customers credit profiles are inaccurate, the risk management models are flawed or ineffective or the customer insights we develop or receive for credit assessment are incorrect or stale, our credit assessment process related

to the loans could be negatively affected, resulting in incorrect approvals, incorrect denials of loans, mispriced loans or biased rejection rates for potential customers we assess. Further, our underwriting models are dependent on data from various sources and our inability to access such data (on account of regulatory or other changes in the ecosystem) could negatively impact the efficacy of such models. In addition, as the customer journeys for our personal loan businesses are largely digital, we face risks associated with not meeting our customers in person, including contact ability and traceability issues in the collections process. If any of the foregoing were to occur, the performance of our credit assessment will be compromised. As a result, our business, brand, reputation, results of operations and financial condition may be adversely affected.

4. *Our cloud computing software and data centres for our primary and backup data storage may experience system downtime, prolonged power outages or shortages.*

We rely on a cloud strategy pursuant to which our applications and systems, including the IBL: Instant Personal Loan App, loan management system, underwriting engine, collections portal, CRM portal, are deployed with one service provider and internal IT assets are hosted with a different third-party service provider. In this regard, we are unable to guarantee that we will not experience system downtime. In addition, the third-party data centres for our primary and backup data storage are regulatorily required to be based in India. The data centre may be susceptible to, *inter alia*, regional costs of power, power shortages, planned or unplanned power outages and limitations on the availability of adequate power resources. Power outages, including, but not limited to those relating to large storms, earthquakes, fires and floods, could harm our customers and our businesses. Although we leverage our technology initiatives for periodic, often fortnightly, upgrades of the IBL: Instant Personal Loan App with the goal of ensuring a 24-hour uptime, any disruption in the operation of our cloud computing software and data centres could negatively impact our business results of operations and financial condition.

5. *Our business processes a large amount of data, including personal data, and the improper collection, hosting, use or disclosure of data could harm our reputation and have an adverse effect on our business, financial condition, results of operations and cash flows.*

Our business processes a large quantity of personal data (with our users' consent) and analyses this data to generate user and user group profiles. Our privacy policies concerning the collection, use and disclosure of personal data (and users' rights thereto) are consented to by our customers and made accessible for their reference at any point in time. We face risks inherent in handling and protecting a large volume of data, especially user data. In particular, we face several challenges relating to data security and privacy, including but not limited to:

- protecting the data in and hosted on our system, including against attacks on our system by outside parties, data leakage, fraudulent behaviour or improper use by our employees;
- addressing concerns, challenges, negative publicity and litigation related to data security and privacy, collection, use and actual or perceived data sharing (including sharing among our own businesses, with business partners, vendors or regulators), and other factors that may arise from our existing businesses or new businesses and new technology; and
- complying with applicable laws and regulations relating to the collection, use, storage, transfer, disclosure and security of personal data, including requests from data subjects.

The improper collection, use or disclosure of our user data could result in a loss of customers, business, partner financial institutions and other potential participants on the IBL – Instant Personal Loan App, loss of confidence or trust in the IBL – Instant Personal Loan App, litigation, regulatory investigations, penalties or actions against us, significant damage to our reputation, and have an adverse effect on our business, financial condition, results of operations and cash flows.

Moreover, we share a limited amount of user data with third-party service providers in accordance with applicable laws and regulations and subject to stringent data security and privacy requirements. We also rely on certain third-party service providers in relation to the sourcing of data for potential customers. We have certain vendors who provide or enable, *inter alia* PAN verification with the National Securities Depository Limited (“NSDL”), and Aadhaar XML download from the Unique Identification Authority of India (“UIDAI”). During the course of providing such services, customer data may be accessed. If such third-party service providers engage in activities that are negligent, fraudulent, illegal or otherwise harm the trustworthiness and security of the IBL – Instant Personal Loan App, including by improper disclosure or use of user data, or if our business partners otherwise fail to meet their data security and privacy obligations, we may be subject to user complaints and suffer reputational harm, even if the actions or activities are not related to, attributable to or caused by us, or within our control.

While we have taken steps, including reprimanding the third-party vendors, augmenting control measures to ensure communications sent on behalf of our Company are pre-approved, filing police complaints for unauthorised use of the “IBL Finance” name and sharing messages to customers informing them about our official contact details, to address such issues in the past, we cannot assure you that we will be able to completely stop such instances from occurring in the future, or whether the mitigating steps taken by us will be prompt or sufficient. Further, while no regulatory or legal action has been taken against us in relation to such instances in the past, we cannot assure you that we will not be subject to any regulatory or legal action for such instances in the future

6. Our business requires substantial capital, and any disruption in funding sources would have a material adverse effect on our liquidity and financial condition.

As an NBFC, our liquidity and on-going profitability are, in large part, dependent upon our timely access to, and the costs associated with, raising capital. Our funding requirements historically have been met from borrowing from inter-corporate deposits, unsecured loans, issue of equity shares. As a part of business strategy, the Company will down sell its loan portfolio in future for raising of additional funds for meeting its business requirements. Thus, our business depends and will continue to depend on our ability to access diversified funding sources. Our ability to raise funds on acceptable terms and at competitive rates continues to depend on various factors including our credit ratings, the regulatory environment and policy initiatives in India, investors' and/or lenders' perception of demand for debt and equity securities of NBFCs, and our current and future results of operations and financial condition. While our borrowing costs have been competitive in the past, if we are unable to access funds at an effective cost that is comparable to or lower than our competitors, we may not be able to offer competitive interest rates for our loans. This may adversely impact our business, prospects, cash flow, results of operations and financial condition.

Changes in economic and financial conditions or continuing lack of liquidity in the market could make it difficult for us to access funds at competitive rates. Such conditions may lead to a disruption in our primary funding sources at competitive costs and would have a material adverse effect on our liquidity and financial condition.

7. High levels of customer defaults or delays in repayment of loans could adversely affect our business, financial condition and results of operations.

Our business involves lending money and accordingly we are subject to customer default risks including default or delay in repayment of principal and/or interest on our loans. Customers may default on their obligations to us as a result of various factors including bankruptcy, lack of liquidity, lack of business, termination from their job, and operational failure. If borrowers fail to repay loans in a timely manner or at all, our financial condition and results of operations will be adversely impacted.

In addition, our customer portfolio consists of individuals and other group of the under banked community, who may or may not have easy access to financing from commercial banks or other organized lenders and often have limited credit history. Such borrowers generally are less financially resilient than larger corporate borrowers, and, as a result, they can be more adversely affected by declining economic conditions. In addition, we may not receive updated information regarding any change in the financial condition of our customers or may receive inaccurate or incomplete information as a result of any fraudulent misrepresentation on the part of our customers. Furthermore, unlike several developed economies, a nationwide credit bureau has only recently become operational in India, so there is less financial information available about the creditworthiness of our customers. It is therefore difficult to carry out precise credit risk analyses on our clients.

Customer defaults could also adversely affect our levels of NPAs and provisioning of the same, which could in turn adversely affect our operations, cash flows and profitability. Our Gross NPAs have increased from ₹ 20.92 lakhs as at March 31, 2022 representing 2.48% of the loan book to ₹ 75.77 lakhs as at March 31, 2023 representing 5.19% of the total loans and advances and our Net NPAs have increased from 15.69 lakhs as at March 31, 2022 representing 1.87% of the loan book to ₹ 56.83 lakhs as at March 31, 2023 representing 3.94% of the total loans and advances. Although we believe that our risk management controls are sufficient, we cannot be certain that they will continue to be sufficient. Failure to continuously monitor the loan contracts, could adversely affect our credit portfolio which could have a material and adverse effect on our results of operations and financial condition.

8. Our Company and our Promoter may not have significant experience in the business of our Company

Our Company was incorporated on August 03, 2017 and since then our Promoters has been engaged in the business of NBFC industry and in particularly fintech space since Fiscal 2020. While we have been able to expand our business over the last 3 years, we may lack sufficient expertise and experience in these field and this may impose additional strain on our resources. Further, our services are used in critical aspect of lending can expose us to litigation and consequent penalties. This may adversely affect our business, results of operation and revenues.

9. We have had negative net cash flows from our operating, investing and financing activities in the recent financial years. Any negative cash flows in the future may adversely affect our results of operations and financial condition.

We have had negative net cash flows from our operating, investing and financing activities during our last three financial years, the details of which are summarised below:

(₹ in Lakhs)

Name	As at July 31, 2023	Fiscal 2023	Fiscal 2022	Fiscal 2021
Net cash generated from / (used in) operating activities	32.14	(894.39)	(563.67)	(80.58)
Net cash generated from/ (used in) investing activities	(92.11)	(8.17)	11.77	65.52

Net cash generated from/ (used in) financing activities	7.69	879.06	638.52	(0.47)
---	------	--------	--------	--------

Any negative cash flows in the future may adversely affect our results of operations and financial condition. For further details, please see “*Financial Statements*” on page 149.

10. *We had incurred loss, and we may not achieve profitability in the future.*

We incurred a loss after tax of (₹ 9.88 Lakhs) in Fiscal 2021. We will continue to make significant effort to further develop and expand our business. In particular, we intend to continue to expand our personal loan portfolio by diversifying our online and offline distribution network to expand customer reach in order to generate new business. We will continue to optimize customer experience and boost operating leverage through continued investments in technology. Despite these investments, we may not succeed in increasing our revenue on the timeline that we expect or in an amount sufficient to achieve profitability. Additionally, as a listed company in India, we expect to incur significant legal, accounting and other expenses that we did not incur as an unlisted company. Moreover, if our revenue declines, we may not be able to reduce costs in a timely manner because many of our costs are fixed at least in the short term. In addition, if we reduce variable costs to respond to losses, this may limit our ability to sign up new customers and grow our revenues. Accordingly, we may not be able to maintain profitability and we may incur significant losses in the future. For further details, see “*Restated Financial Statements*” on page 149.

11. *We are subjected to supervision and regulation by the RBI as a non-systemically important NBFC, and changes in RBI’s regulations governing us could adversely affect our business.*

We are subject to the RBI’s guidelines on financial regulation of NBFCs, including capital adequacy, exposure and other prudential norms. The RBI also regulates the credit flow by banks to NBFCs and provides guidelines to commercial banks with respect to their investment and credit exposure norms for lending to NBFCs. The RBI’s regulations of NBFCs could change in the future which may require us to restructure our activities, incur additional cost or could otherwise adversely affect our business and our financial performance. Through the Master Directions, RBI has amended the regulatory framework governing NBFCs to address concerns pertaining to risks, regulatory gaps and arbitrage arising from differential regulations and aims to harmonise and simplify regulations to facilitate a smoother compliance culture among NBFCs.

Even though the RBI, has not provided for any restriction on interest rates that can be charged by non -deposit taking NBFCs, there can be no assurance that the RBI and/or the Government will not implement regulations or policies, including policies or regulations or legal interpretations of existing regulations, relating to or affecting interest rates, taxation, inflation or exchange controls, or otherwise take action, that could have an adverse effect on non -deposit taking NBFCs. In addition, there can be no assurance that any changes in the laws and regulations relative to the Indian financial services industry will not adversely impact our business.

12. *Non-compliance with the RBI’s observations made pursuant to its periodic inspections and violations of regulations prescribed by the RBI, could expose us to certain penalties and restrictions.*

As an NBFC, we are subject to periodic inspections by the RBI under Section 45N of the RBI Act, wherein the RBI inspects our books of accounts and other records for the purpose of verifying the correctness or completeness of any statement, information or particulars furnished to the RBI or for obtaining any information, which we may have failed to furnish when called upon to do so. In its past inspection reports, the RBI has (a) identified certain deficiencies in our operations, (b) made certain observations in relation to our operations during its periodic inspections and (c) sought certain clarifications on our operations. These observations inter-alia pertained to (a) concentration of credit/investment; (b) scope of audit; (c) adherence to KYC; (d) compliances pertaining to fraud monitoring, asset liability management and risk management; and (e) requirement for obtaining prior approval of the RBI in cases of acquisition/transfer of control. For further information, see “*Other regulatory and statutory disclosure*” on page 218 of this Prospectus. The Company had considered these observations and had submitted their responses and explanations. certain areas, which required some changes to the policies and processes were either duly complied with or undertaken to be complied with in due course, which the Company has fulfilled. Such due compliance was notified by the Company to the Reserve Bank of India. Thereafter there has been no communication or remarks by the Reserve Bank of India and further there was no qualification in our Audit Reports.

We submit that there was no financial impact on the Company arising from the observations raised by the RBI during the last inspection and no penalties were imposed and no warning letters were issued by the RBI pursuant to any such inspection. In case of any penalty or adverse finding by RBI or in case of any material developments in the above matters, then the same shall be intimated to Stock Exchanges and all the above information will be updated in the offer documents.

While we attempt to comply with all regulatory provisions, directions or observations applicable to us, including in connection with the RBI inspection reports (all of which have been responded to by us), if we are unable to comply with the RBI’s observations or directions, we could be subject to penalties and restrictions which may be imposed by the RBI. Imposition of any penalty or adverse finding by the RBI during any future inspection may have a material adverse effect on our reputation, business, financial condition, results of operations and cash flows.

13. *We may be subject to regulations in respect of provisioning for non-performing assets. If such provisions are not sufficient to provide adequate cover for loan losses that may occur, this could have an adverse effect on our financial condition, liquidity and results of operations.*

RBI guidelines prescribe the provisioning required in respect of our outstanding loan portfolio. These provisioning requirements may require us to reserve lower amounts than the provisioning requirements applicable to financial institutions and banks in other countries. The provisioning requirements may also require the exercise of subjective judgments of management. The Company classifies its receivables as standard, sub-standard and doubtful assets and provided for as per the Company's policy and Management's estimates, subject to the minimum classification and provisioning norms as per the Master Direction - Non-Banking Financial Company - Non-Systematically important Non-Deposit taking Company (Reserve Bank) Directions, 2016. The RBI has now harmonised the NPA norms for all NBFCs to 90 days. A glide path has been provided to NBFCs in the base layer to adhere to the 90 days NPA norm till 2026. We have been following the practice of 90 days NPA norms.

There are multiple factors that affect the level of NPAs in our Company. Various factors that are beyond our control, such as macro-economic factors (including a rise in unemployment, a sharp and sustained rise in interest rates, developments in the Indian economy, movements in global commodity markets and exchange rates), regulatory hurdles and global competition as well as customer specific factors such as wilful default and mismanagement of a customer's operations, may result in increasing NPA levels and may have an adverse impact on the quality of our loan portfolio. If we are unable to effectively control our NPA levels in the future, we will be required to increase our provisions, which may adversely affect our profitability and financial condition. The RBI regulates certain aspects of the recovery of non-performing loans, such as the use of recovery agents. Any limitation on our ability to recover, control and reduce non-performing loans under the applicable regulatory regime or otherwise could affect our collections and ability to foreclose on existing NPAs. The level of our provisions may not be adequate to cover further increases in the amount of our nonperforming assets or a decrease in the value of the underlying collateral. If we are unable to control the level of our NPAs in the future, quality of our loan portfolio could deteriorate, our credit ratings could be downgraded and our cost of funds could increase, any of which could have a material adverse effect on our financial condition and results of operations.

14. *Our inability to obtain, renew or maintain our statutory and regulatory permits and approvals required to operate our business may have a material adverse effect on our business, financial condition and results of operations.*

NBFCs in India are subject to strict regulations and supervision by the RBI. In addition to the numerous conditions required for the registration as a NBFC with the RBI, we are required to maintain certain statutory and regulatory permits and approvals for our business. In the future, we will be required to renew such permits and approvals and obtain new permits and approvals for any proposed operations. There can be no assurance that the relevant authorities will issue any of such permits or approvals in the time-frame anticipated by us or at all. Failure on our part to renew, maintain or obtain the required permits or approvals may result in the interruption of our operations and may have a material adverse effect on our business, financial condition and results of operations.

Pursuant to change of status of our Company from a private limited company to a public limited company pursuant to receipt of revised certificate of incorporation dated May 22, 2023, we have applied to various registration agency(ies)/authority(ies) to revise the name of our Company on the certificate of registration issued by respective agency(ies)/authority(ies). Few of the applications are still pending as of the date of this Prospectus and we cannot guarantee that our application will be approved by respective agency(ies)/authority(ies) prior to the closure of the Issue. Additionally, RK World Tower, a premise in which the Rajkot office of the Company is situated is newly constructed. Rajkot Municipal Corporation has yet not issued and generated Property Tax Code to any offices situated in RK World Tower. Since, Property Tax Bill is one of the documents to be submitted while making applications for Shops and Establishment, Professional Tax Prayer Enrolment Certificate (PEC) and Professional Tax Prayer Registration Certificate (PRC) and the same is not yet issued by the Rajkot Municipal Corporation, the Company cannot make application for obtaining Shops and Establishment, PEC and PRC.

Moreover, the shops and establishment laws regulate various employment conditions, including working hours, holidays and leave and overtime compensation. If we fail to obtain or retain any of these approvals or licenses, or renewals thereof, in a timely manner, or at all, our business may be adversely affected. If we fail to comply, or a regulator claims we have not complied, with any of these conditions, our certificate of registration may be suspended or cancelled, and we shall not be able to carry on such activities.

15. *We depend on customer supplied information when evaluating customer credit worthiness.*

In deciding whether to extend credit or enter into other transactions with customers and counter parties, we may rely on information furnished to us by or on behalf of our customers, including the financial information from which we create our credit assessments. We may also rely on customer representations as to the accuracy and completeness of customer supplied information. Any relevant changes in this information may not be made available to us. The information that we have gathered may not be sufficient to create a complete customer risk profile. Because we rely on such customer supplied information, some or all of certain customers' risk profiles may be wilfully or inadvertently wrong or misleading, which may lead us to enter into transactions that may adversely affect our financial condition and results of operations.

16. *Our loan book comprises of unsecured loans. Our inability to recover the amounts due from customers in connection with such loans in a timely manner could adversely affect our operations and profitability.*

Our loan book comprises of unsecured loans. Since such loans are unsecured, in case of customer defaults in connection with such loans, our ability to realise the amounts due to us for such loans would be restricted to initiating legal proceedings for recovery, as we will not have the benefit of enforcing any security interest related to such loans. There can be no guarantee as to the time that would be taken for the final disposal of such legal proceedings and/or our ability to obtain favourable decisions in connection therewith.

Because of the unsecured nature, it is essential that such loans are appropriately priced, taking into account a possible high rate of interest and all other relevant factors. In making a decision whether to extend credit to prospective customers, and the terms on which we are willing to provide credit, including the price, we rely heavily on our credit scoring models, and our credit experience gained through monitoring the performance of customers over time. Our credit scoring models are based on previous historical experience. If our credit scoring models are not redeveloped as required or if they do not perform up to target standards, we may experience increasing defaults or higher customer acquisition costs. As on July 31, 2023, March 31, 2023, March 31, 2022 and March 31, 2021 we have written-off loss assets of ₹ 188.13 lakhs, ₹ 306.40 lakhs, ₹ 62.51 lakhs and ₹ 6.14 lakhs, respectively.

Further, our lending products generally do not have any definite end-use restrictions and our customers may utilise such loans for various purposes, which are often incapable of being monitored on a regular basis or at all. Our inability to recover the amounts due from customers in connection with such loans in a timely manner or at all and/or to comply with applicable statutory/regulatory requirements in connection with such loans could adversely affect our operations and profitability.

17. *Our business operations involve transactions with relatively high-risk borrowers. Any default from our customers could adversely affect our business, results of operations and financial condition.*

A certain portion of our target customers typically have limited access to credit with limited to or no prior credit history. As a result, we are more vulnerable to customer default risks including delay in repayment of principal or interest on our loans. Although we have our own customised due diligence and credit analysis procedures, there can be no assurance that we will be able to ensure a lower delinquency rate. Our profitability depends on our ability to evaluate the right income levels of our customers, assess the credit risks and to price our loans accordingly. Our customers may default on their obligations as a result of various factors including bankruptcy, insolvency, lack of liquidity and/or failure of the business or commercial venture in relation to which such borrowings were sanctioned. Failure to maintain sufficient credit assessment policies, particularly for small and medium enterprise borrowers, could adversely affect our credit portfolio which could have a material and adverse effect on our results of operations and financial condition.

18. *We face increasing competition in our business which may result in declining margins if we are unable to compete effectively.*

We face competition in all our lines of business. Our primary competitors are other NBFCs, fintech companies, public sector banks, private sector banks, co-operative banks and foreign banks and the unorganized financiers who principally operate in the markets where we operate. Banks have access to low cost funds which enables them to enjoy higher margins and / or offer finance at lower rates. NBFCs do not have access to large quantities of low cost deposits, a factor which can render them less competitive. In addition, interest rate deregulation and other liberalization measures affecting the retail and small and medium enterprises finance sector, together with increased demand for capital by individuals as well as small and medium enterprises, have resulted in an increase in competition.

In addition, our target customers also borrow from money lenders and non-institutional lenders which may lend at higher rates of interest. All of these factors have resulted in us facing increased competition from other lenders in each of our lines of businesses, including commercial banks and other NBFCs. Our ability to compete effectively will depend, to some extent, on our ability to raise low-cost funding in the future. Furthermore, as a result of increased competition in the finance sector, finance products are becoming increasingly standardized and variable interest rate and payment terms and lower processing fees are becoming increasingly common in the finance sector in India. There can be no assurance that we will be able to react effectively to these or other market developments or compete effectively with new and existing players in the increasingly competitive finance industry. Increasing competition may have an adverse effect on our net interest margin, and, if we are unable to compete successfully, our market share may decline. If we are unable to compete effectively with other participants in the finance sector, our business, future financial performance and the trading price of our Equity Shares may be adversely affected.

19. *If we are not able to control the level of non-performing assets in our portfolio, the overall quality of our loan portfolio may deteriorate, and our results of operations may be adversely affected.*

We may not be successful in our efforts to improve collections on existing as well as future non-performing assets. Moreover, as our loan portfolio increases, we may experience greater defaults in principal and/or interest repayments. Thus, if we are not able to control our level of non-performing assets, the overall quality of our loan portfolio may deteriorate, and our results of operations may be adversely affected. Our gross NPAs for the period ended July 31, 2023, Fiscals ended March 31, 2023,

March 31, 2022 and March 31, 2021, was ₹ 77.39 lakhs, ₹ 75.77 lakhs, ₹20.92 lakhs and ₹52.95 lakhs, respectively.

The Master Directions prescribe the provisioning required in respect of our outstanding loan portfolio. Should the overall credit quality of our loan portfolio deteriorate, the current level of our provisions may not be adequate to cover further increases in the amount of our non-performing assets. Furthermore, although we believe that our total provision will be adequate to cover all known losses in our asset portfolio, our current provisions may not be adequate when compared to the loan portfolios of other financial institutions. Moreover, there also can be no assurance that there will be no further deterioration in our provisioning coverage as a percentage of gross non-performing assets or otherwise, or that the percentage of non-performing assets that we will be able to recover will be similar to our past experience of recoveries of non-performing assets. In the event of any further increase in our non-performing asset portfolio, there could be an even greater, adverse impact on our results of operations.

20. *We are exposed to operational risks, including employee negligence, petty theft, burglary and embezzlement and fraud by employees, customers or third parties, which could harm our results of operations and financial position.*

We may infrequently engage in cash collections to recover our dues. Such cash transactions may expose us to the risk of theft, burglary and misappropriation or unauthorized transactions by our employees and fraud by employees, customers or third parties. Our insurance policies, security systems and measures undertaken to detect and prevent these risks may not be sufficient to prevent or deter such activities in all cases, which may adversely affect our operations and profitability. Further, we may be subject to regulatory or other proceedings in connection with any unauthorized transaction, fraud or misappropriation by our representatives and employees, which could adversely affect our goodwill. While we have not experienced any such incidents in the past, we cannot assure you that we would not be subject to such risk in the future, which can have a material impact on our business, profit and cash flow.

21. *If we are unable to manage our growth effectively, our business and reputation could be adversely affected.*

We commenced our lending business to MSMEs in the financial year 2019. Subsequently, we migrated to fintech based financial services platform that leverages technology and data-science to provides instant personal loans. As on March 31, 2023, we have 3,81,156 login customers and have disbursed an amount of ₹ 5234.70 lakhs. For the period April 01, 2023 to July 31, 2023, we have 1,28,732 login customers and have disbursed an amount of ₹ 1521.69 lakhs. Further, we believe that a mix of on-line and off-line presence will help us to expand our business, customer reach and also reduce the level of NPA's. As on March 31, 2023 we were operating from 1 branch with a total loan portfolio of ₹ 1461.18 lakhs with loan disbursed to 1,22,078 customers. For the period April 01, 2023 to July 31, 2023, we were operating from 7 branch with a total loan portfolio of ₹ 1542.17 lakhs with loan disbursed to 14,525 customers. Our loan book (Asset Under Management) has grown from ₹ 262.78 lakhs as at March 31, 2021 to ₹ 1461.18 lakhs as at March 31, 2023. As our growth strategy we would expand our branch presence across 2 states namely Maharashtra and Gujarat.

There can be no assurance that we will be able to sustain our growth strategy successfully or that we will be able to expand further or diversify our product portfolio. If we grow our loan book too rapidly or fail to make proper assessments of credit risks associated with new borrowers, a higher percentage of our loans may become non-performing, which would have a negative impact on the quality of our assets and our financial condition.

Expanding our products or entering into new jurisdictions with new or existing products can be costly and require significant management time and attention. Additionally, as our operations grow in size, scope and complexity and our product offerings increase, we will need to enhance and upgrade our systems and infrastructure to offer an increasing number of enhanced solutions, features and functionality. The expansion of our systems and infrastructure will require us to commit substantial financial, operational and technical resources in advance of an increase in the volume of business, with no assurance that the volume of business will increase. We will need to recruit new employees, who will have to be trained and integrated into our operations. We will also have to train existing employees to adhere properly to internal controls and risk management procedures. Failure to train our employees properly may result in an increase in employee attrition rates, require additional hiring, erode the quality of customer service, divert management resources, increase our exposure to high-risk credit and impose significant costs on us.

22. *We may experience difficulties in expanding our business into new regions and markets in India and introducing our complete range of products in each of our branches.*

As part of our growth strategy, we continue to evaluate attractive growth opportunities to expand our business into new regions and markets in India. Factors such as competition, culture, regulatory regimes, business practices & customs and customer requirements in these new markets may differ from those in our current markets and our experience in our current markets may not be applicable to these new markets. In addition, as we enter new markets and geographical regions, we are likely to compete with other banks and financial institutions that already have a presence in those geographies and markets and are therefore more familiar with local regulations, business practices and customs and have stronger relationships with customers. Our business may be exposed to various additional challenges including obtaining necessary governmental approvals, identifying and collaborating with local business and partners with whom we may have no previous working relationship; successfully gauging market conditions in local markets with which we have no previous familiarity; attracting potential

customers in a market in which we do not have significant experience or visibility; being susceptible to local taxation in additional geographical areas of India and adapting our marketing strategy and operations to different regions of India in which different languages are spoken. Our inability to expand our current operations may adversely affect our business prospects, financial conditions and results of operations.

23. *Our business is based on the trust and confidence of our customers; any damage to that trust and confidence may materially and adversely affect our business, future financial performance and results of operations.*

We are dedicated to earning and maintaining the trust and confidence of our customers and we believe that the good reputation

created thereby and inherent in the “” brand name is essential to our business. The reputation of our Company

and/or the “” brand could be adversely affected by any threatened and/or legal proceedings and/or any negative

publicity or news articles in connection with our Company or the “” brand. As such, any damage to our

reputation, or that of the “” brand name, could substantially impair our ability to maintain or grow our business. If we fail to maintain brand recognition with our target customers due to any issues with our product offerings, a deterioration in service quality, or otherwise, or if any premium in value attributed to our business or to the brands under which our services are provided declines, market perception and customer acceptance of our brands may also decline. Any negative news affecting us might also affect our reputation and brand value.

24. *System failures or inadequacy and security breaches in computer systems may adversely affect our business.*

Our business is increasingly dependent on our ability to process, on a daily basis, a large number of transactions. Our financial, accounting or other data processing systems may fail to operate adequately or become disabled as a result of events that are wholly or partially beyond our control including a disruption of electrical or communications services. Our ability to operate and remain competitive will depend in part on our ability to maintain and upgrade our information technology systems on a timely and cost-effective basis. The information available to and received by our management through our existing MIS systems may not be timely and sufficient to manage risks or to plan for and respond to changes in market conditions and other developments in our operations. We may experience difficulties in upgrading, developing and expanding our systems quickly enough to accommodate our growing customer base and range of products. Our operations also rely on the secure processing, storage and transmission of confidential and other information in our computer systems and networks. Our computer systems, software and networks may be vulnerable to unauthorized access, computer viruses or other malicious code and other events that could compromise data integrity and security. Any failure to effectively maintain or improve or upgrade our management information systems in a timely manner could materially and adversely affect our competitiveness, financial position and results of operations. Moreover, if any of these systems do not operate properly or are disabled or if there are other shortcomings or failures in our internal processes or systems, it could affect our operations or result in financial loss, disruption of our businesses, regulatory intervention or damage to our reputation. In addition, our ability to conduct business may be adversely impacted by a disruption in the infrastructure that supports our businesses and the localities in which we are located.

25. *We do not have any insurance coverage to protect us against all potential losses to which we may be subject.*

We have not taken any insurance coverage for a number of the risks associated with our business, such as insurance cover against loss or damage by fire, explosion, burglary, theft and robbery. To the extent that we suffer any loss or damage that is not covered by insurance, our business and results of operations could be adversely affected.

26. *All the loans granted are short term in nature.*

All of the loans we grant are due within one year of disbursement or are to be renewed within one year if need be. The relatively short-term nature of our loans means that our long-term interest income stream is less certain than if a portion of our loans were for a longer term. In addition, our borrowers may not obtain new loans from us upon maturity of their existing loans, particularly if competition increases. The potential instability of our interest income could materially and adversely affect our results of operations and financial position.

27. *Our measures to prevent money laundering may not be completely effective and we may be subject to scrutiny and penalties by the RBI for failure to implement effective measures. Moreover, various state government laws regulating money lending transactions could adversely affect our business, prospects, results of operations and financial condition.*

Our Company is required to comply with applicable anti-money-laundering and anti-terrorism laws and other regulations in India. Our measures to prevent money laundering as required by the RBI and other KYC compliance applicable in India,

including the Reserve Bank of India (Know Your Customer) Master Directions, 2016 dated February 25, 2016, as amended (“KYC Directions”) and the adoption of anti-money laundering policies and compliance procedures in all our branches may not be completely effective. Additionally, certain states in India have enacted laws to regulate money lending transactions, which may for instance establish a maximum rate of interest that can be charged.

In the event, we are required to comply with the provisions of these state money lending laws and KYC Compliances, there may be severe civil and criminal penalties for non-compliance with the relevant money lending statutes. In the event that the government of any state in India requires us to comply with the provisions of their respective state money lending laws, KYC Compliances, or imposes any penalty against us for prior non-compliance, our business and results of operations could be adversely affected.

28. ***We depend on the accuracy and completeness of information about customers and counterparties for certain key elements of our credit assessment and risk management process. Any misrepresentation, errors in or incompleteness of such information could adversely affect our business and financial performance.***

In deciding whether to extend credit or enter into other transactions with customers, for certain key elements of the credit assessment process, we rely on information furnished to us by or on behalf of customers (including in relation to their financial transactions and past credit history). We may also rely on certain representations from our customers as to the accuracy and completeness of that information. For ascertaining the creditworthiness and encumbrances on collateral we may depend on the respective registrars and sub-registrars of assurances, credit information companies or credit bureaus, and on independent valuers in relation to the value of the collateral, and our reliance on any misleading information given, may affect our judgement of credit worthiness of potential borrowers, and the value of and title to the collateral, which may affect our business, prospects, results of operations and financial condition. We may receive inaccurate or incomplete information as a result of negligence or fraudulent misrepresentation. Our risk management measures may not be adequate to prevent or deter such activities in all cases, which may adversely affect our business prospects, financial condition and results of operations.

29. ***Our ability to assess, monitor and manage risks inherent in our business differs from the standards of some of our counterparts in India and in some developed countries.***

We are exposed to a variety of risks, including liquidity risk, interest rate risk, credit risk, operational risk and legal risk. The effectiveness of our risk management is limited by the quality and timeliness of available data. Our strategies and risk management techniques may not be fully effective in mitigating our risks in all market environments or against all types of risk, including risks that are unidentified or unanticipated. Some methods of managing risks are based upon observed historical market behaviour. As a result, these methods may not predict future risk exposures, which could be greater than the historical measures indicated. Other risk management methods depend upon an evaluation of information regarding markets, customers or other matters. This information may not in all cases be accurate, complete, current, or properly evaluated.

Management of operational, legal or regulatory risk requires, among other things, policies and procedures to properly record and verify a number of transactions and events. Although we have established these policies and procedures, they may not be fully effective. Our future success will depend, in part, on our ability to respond to new technological advances and evolving the NBFC standards and retail finance sector standards and practices on a cost-effective and timely basis. The development and implementation of such technology entails significant technical and business risks. There can be no assurance that we will successfully implement new technologies or adapt our transaction processing systems to customer requirements or evolving market standards.

30. ***Our promoters, directors, key managerial personnel and senior management play key role in our functioning and we heavily rely on their knowledge and experience in operating our business and therefore, it is critical for our business that they remain associated with us.***

Our ability to sustain our rate of growth depends significantly upon our ability to manage key issues such as selecting and retaining key operations personnel, developing managerial experience to address emerging challenges and ensuring a high standard of client service. In order to be successful, we must attract, train, motivate and retain highly skilled employees, especially branch managers and product executives. If we cannot hire additional qualified personnel or retain them, our ability to expand our business will be impaired and our revenue could decline. We will need to recruit new employees, who will have to be trained and integrated into our operations. We will also have to train existing employees to adhere properly to internal controls and risk management procedures. Failure to train and motivate our employees properly may result in an increase in employee attrition rates, divert management resources and subject us to incurring additional human resource related expenditure. Hiring and retaining qualified and skilled managers are critical to our future, as our business model depends on our credit-appraisal and asset valuation mechanism, which are personnel-driven operations. Moreover, competition for experienced employees in the finance sector can be intense. Our promoters, directors, key managerial personnel and senior management have been actively involved in the day-to-day operations and management since the incorporation of the Company. Further, our Promoters, directors, key managerial personnel and senior management may promote other companies/ firms/ ventures, will divert their attention to the other companies, we may not be able to function as efficiently and profitably as before. We may have to incur additional costs to replace the services of our promoters, directors, key managerial personnel and senior management or we may not be able to do so at all, which could adversely affect our business operations and affect

our ability to continue to manage and expand our business. Our inability to attract and retain talented professionals, or the resignation or loss of key operations personnel, may have an adverse impact on our business and future financial performance.

31. *Our liquidity may be affected by the COVID-19 pandemic which may affect our ability to continue to operate and grow our business.*

There is no guarantee that we and the Indian financial services industry in general, notwithstanding measures taken by the Government, will be able to maintain sufficient liquidity given the uncertain scope and duration of the COVID-19 pandemic. Given the broad impact of COVID-19 on the financial markets, our ability to borrow money to fund our current and future customer demand is uncertain. Our liquidity could also be affected as our lenders reassess their exposure to NBFCs and either curtail access to financing facilities or impose higher costs to access such facilities. While there has been no significant loan write-off during the COVID-19 we cannot assure you that any outbreak of the COVID-19 in the future will not limit our ability to recover our loan in part, full or at all.

Even if such demand exists, we face a higher risk as a result of the COVID-19 pandemic stemming from our customers inability to repay the underlying loans. Further, if as a consequence of COVID-19, NBFCs are unable to meet their market commitments, this could affect investor confidence in NBFCs generally and result in a loss of investors in NBFCs. A liquidity shortage for the industry as a whole may adversely affect our cash flows.

32. *We have made Company Law related non-compliances in the past. We may be subject to regulatory action, including monetary penalty that may be imposed on us.*

There have been certain non-compliances in respect of company law related matters by the Company. For instance, non-compliances with regards to Companies Act, 2013 are mentioned below:

Non-compliance	Action taken to rectify the non-compliance
Appointment of Hitisha Chanchad as Additional Non-Executive Independent Director before registration under Independent Director's Databank under MCA portal	Regularized as Non-Executive Independent Director after registration under Independent Director's Databank under MCA portal

Further we shall intimate the respective regulatory authorities in case of any regulatory action, notices, fines, penalties, etc. by any authority pertaining to company law related non-compliances. Notices may be issued upon our Company and fines or penalties may also be imposed upon our Company, which may adversely affect our administration from compliance perspective. There can be no assurance that no penal action will be taken against us by the regulatory authorities with respect to the non-compliances. If any adverse actions are taken against us, our financial results could be affected.

33. *We utilize the services of certain consultants for some of our operations. Any deficiency or interruption in their services could adversely affect our business operations and reputation.*

We engage third party consultants from time to time to develop its mobile based applications. This application was developed by third party vendors which is the core for the business operations of the Company. Further, this vendor are also engaged in maintaining of our applications. Our ability to control the manner in which services are provided by third party consultants is limited and we may be liable legally or suffer reputational damage on account of any deficiency of services on part of such consultants. We cannot assure you that we will be successful in continuing to receive uninterrupted and quality services from our third-party consultants. Any disruption or inefficiency in the services provided by our third-party consultants could interrupt our business operations and damage our reputation.

34. *All of our offices and branches are located in rental premises and non-renewal of rental agreements or their renewal on terms unfavourable to us could adversely affect our operations.*

As of March 31, 2023, all of our offices including our Registered Office, administrative office and branches are located in rental premises. Further, as we expand our branch network in line with our growth strategy, we expect the number of leased branches to increase significantly as all of our new branches are expected to open on leased premises. If any of the owners of these premises do not renew the agreements under which we occupy the premises, or if they seek to renew such agreements on terms and conditions unfavourable to us, or if they terminate the agreement, we may suffer a disruption in our operations or increased costs, or both, which may adversely affect our business and results of operations.

All or any of the leases may not be renewed on similar terms or at all, or we may be evicted from all or a number of these premises and be required to pay damages to the landlord. This may adversely impact our business and financial condition.

35. *We have in the past entered into related party transactions and may continue to do so in the future, which may potentially involve conflicts of interest with the equity shareholders.*

We have entered into certain transactions with related parties, while we believe that all such transactions have been conducted on an arm's length basis and contain commercially reasonable terms, we cannot assure you that we could not have achieved more favourable terms had such transactions been entered into with unrelated parties. While we confirm that all such transactions have been conducted on an arm's length basis and in the ordinary course of business and in accordance with the

relevant provisions of Companies Act and all others applicable laws but there can be no assurance that we could not have achieved more favourable terms had such transactions not been entered into with related parties. Furthermore, it is likely that we may enter into related party transactions in the future. Although all related party transactions that we may enter into will be subject to board or shareholder approval, as necessary under the Companies Act, 2013, as amended and the SEBI Listing Regulations, we cannot assure you that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operations or that we could not have achieved more favourable terms if such transactions had not been entered into with related parties. For details, see “*Related Party Transactions*” under “*Financial Statements*” on page 149.

36. *The new bankruptcy code in India may affect our rights to recover loans from borrowers. The Insolvency and Bankruptcy Code, 2016 (“Bankruptcy Code”) was notified on August 5, 2016.*

The Bankruptcy Code offers a uniform and comprehensive insolvency legislation encompassing all companies, partnerships and individuals (other than financial firms). It allows creditors to assess the viability of a debtor as a business decision, and agree upon a plan for its revival or a speedy liquidation. The Bankruptcy Code creates a new institutional framework, consisting of a regulator, insolvency professionals, information utilities and adjudicatory mechanisms, which will facilitate a formal and time-bound insolvency resolution and liquidation process.

In case insolvency proceedings are initiated against a debtor to our Company, we may not have complete control over the recovery of amounts due to us. Under the Bankruptcy Code, upon invocation of an insolvency resolution process, a committee of creditors is constituted by the interim resolution professional, wherein each financial creditor is given a voting share proportionate to the debts owed to it. Bankruptcy Code provides a 180-day timeline which may be extended by 90 days when dealing with insolvency resolution applications.

Subsequently, the insolvency resolution plan prepared by the insolvency professionals has to be approved by 66% of voting share of financial creditors, which requires sanction by the adjudicating authority and, if rejected, the adjudicating authority will pass an order for liquidation. Any resolution plan approved by committee of creditors is binding upon all creditors, even if they vote against it. In case a liquidation process is opted for, the Bankruptcy Code provides for a fixed order of priority in which proceeds from the sale of the debtor’s assets are to be distributed. Before sale proceeds are distributed to a secured creditor, they are to be distributed for the costs of the insolvency resolution and liquidation processes, debts owed to workmen and other employees, and debts owed to unsecured credits. Further, under this process, dues owed to the Central and State Governments rank at par with those owed to secured creditors. Moreover, other secured creditors may decide to opt out of the process, in which case they are permitted to realise their security interests in priority.

While, we provide personal loan which are not covered under the Bankruptcy Code, we may in the future expand our product offerings, including providing SME and business loans. Accordingly, if the provisions of the Bankruptcy Code are invoked against any of the borrowers of our Company, it may affect our Company’s ability to recover our loans from the borrowers and enforcement of our Company’s rights will be subject to the Bankruptcy Code.

Further, the GoI vide notification dated March 24, 2020 (“Notification”) has amended section 4 of the Bankruptcy Code due the lingering impact of the COVID-19 pandemic. Pursuant to the said Notification, GoI has increased the minimum amount of default under the insolvency matters from ₹1,00,000 to ₹1,00,00,000. Therefore, the ability of our Company to initiate insolvency proceedings against the defaulters where the amount of default in an insolvency matter is less the ₹1,00,00,000 may impact the recovery of outstanding loans and profitability of our Company.

37. *Our inability to maintain our capital adequacy ratio could adversely affect our business.*

The RBI Master Directions currently require NBFCs to comply with a capital to risk (weighted) assets ratio, or capital risk adequacy ratio (“CRAR”), consisting of Tier I and Tier II capital. Accordingly, we are required to maintain a CRAR consisting of Tier I and Tier II capital, which shall not be less than 15% of our aggregate risk weighted assets on-balance sheet and of risk adjusted value of off-balance sheet items on an ongoing basis. Our Company’s Tier I capital adequacy ratio was 114.80% as of March 31, 2023 as per our Restated Financial Statements. Though presently our CRAR is higher than the prescribed regulatory requirement and we are well capitalized, if we continue to grow our Total Credit Exposure and asset base, we will be required to raise additional capital in order to continue to meet applicable capital adequacy ratios with respect to our business. Further, the RBI may increase its minimum CRAR threshold, which may require us to raise additional capital. There can be no assurance that we will be able to raise adequate additional capital in the future on terms favourable to us or at all, which could result in non-compliance with applicable capital adequacy ratios and may adversely affect the growth of our business. We cannot assure you that we would be able to raise adequate additional capital required under these regulations in the future on favourable terms, which may adversely affect the growth of our business.

38. *We use third-party software, hardware, technologies from third parties that may be difficult to replace or that may cause errors or defects in, or failures of, the software products or solutions we provide.*

We rely on software and hardware from various third parties to deliver our software products and solutions, as well as hosted applications from third parties. If any of these software and hardware become unavailable due to extended outages, interruptions or because they are no longer available on commercially reasonable terms, it could result in delays in the

provisioning of our software products until equivalent technology is either developed by us, or, if available, is identified, obtained and integrated, which could increase our expenses or otherwise harm our business. Further, the third-party service providers may face closure, financial difficulty or be involved in major litigation, which may affect our access to their software and technologies. If we lose the licenses which permit us to use such software, they may be difficult to replace and it may be costly to do so. In addition, any errors or defects in or failures of this third-party software or hardware applications could result in errors or defects in or failures of our software products and solutions, which could harm our business and be costly to correct. Further, we are liable to our customers for any loss faced by them due to our use of these third-party software and technologies. Many of these providers attempt to impose limitations on their liability for such errors, defects or failures, and if enforceable, we may have additional liability to our customers or third-party providers that could harm our reputation and increase our operating costs.

39. *The fund requirement and deployment mentioned in the Objects of the Issue have not been appraised by any bank or financial institution.*

We intend to use the net proceeds of the Issue, after meeting the expenditures of and related to the Issue, for the purpose of onward lending, repayment of interest and principal of borrowings and for general corporate purposes. For further details, see “*Objects of the Issue*” at page 75. The fund requirement and deployment are based on internal management estimates and has not been appraised by any bank or financial institution. The management will have significant flexibility in applying the proceeds received by us from the Issue. Further, as per the provisions of the SEBI ICDR Regulations, we are not required to appoint a monitoring agency and therefore no monitoring agency has been appointed for the Issue.

40. *Our results of operations could be adversely affected as a result of any disputes with our employees.*

Our operations are personnel-driven, and we place a lot of emphasis on the effective training of our personnel in communication and service orientation skills. However, a failure to train and motivate our employees may lead to an increase in our employee attrition rates, erode the quality of customer service, divert management resources and impose significant costs on us which may have an adverse impact on our business and future financial performance.

We employ 81 full-time employees as of June 30, 2023, and lay significant emphasis on our employees' overall welfare. However, there can be no assurance that there will not be any future disruptions in our operations due to any disputes with our employees, or that such disputes will not adversely affect our business and results of operations. We depend on our branch-level employees for sourcing, disbursements and collections and customer liaison, and significant attrition at any of our branches could adversely impact our operations. Further, in the event of a labour dispute, protracted negotiations and strike action may impair our ability to carry on our day-to-day operations, which could materially and adversely affect our business, future financial performance and results of operations.

41. *We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and the NBFC and Loan industries contained in this Draft Prospectus.*

While facts and other statistics in this Prospectus relating to India, the Indian economy as well as the Loan industry have been based on various publications and reports from agencies that we believe are reliable, we cannot guarantee the quality or reliability of such materials, particularly since there is limited publicly available information specific to the Loan industry. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics, the same have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in “*Industry Overview*” on page 91. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon.

Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

42. *Our ability to pay dividends in the future will depend on restrictive covenants of our financing arrangements, our future results of operations, financial condition, cash flows and working capital and capital expenditure requirements*

Any dividends to be declared and paid by us in the future are required to be recommended by our Board and approved by our Shareholders, at their discretion, subject to the provisions of the Articles of Association, Dividend Policy and applicable laws and regulations. Our ability to pay dividends in the future will depend on our future results of operations, financial condition, cash flows, sufficient profitability, working capital requirements, capital expenditure requirements, business prospects and any other financing arrangements.

Dividends distributed by us will be taxed by any applicable dividend distribution tax and may be subject to other requirements prescribed by the regulatory authorities, as the case may be. We cannot assure you that we will generate sufficient revenues to cover our operating expenses and, as such, pay dividends to our shareholders in future consistent with our past practices, or at all. For details pertaining to dividend declared by us in the past, please see “*Other Regulatory and Statutory Disclosures*” on page 218. As per the law, dividends may be paid out of profits earned during the year or out of accumulated profits earned

by a company in previous years and transferred by it to its reserves (subject to certain conditions). Any accumulated profits that are not distributed in a given year are retained and may be available for distribution in subsequent years.

43. ***We have not commissioned an industry report for the disclosures made in the chapter titled ‘Industry Overview’ and made disclosures on the basis of the data available on the internet and such data has not been independently verified by us.***

We have not commissioned an industry report for the disclosures made in the chapter titled ‘**Industry Overview**’ beginning of page 91 and made disclosures on the basis of the data available on the internet and such data has not been independently verified by us. We have made disclosures in the said chapter on the basis of the relevant industry related data available online for which relevant consents have been obtained. We have not independently verified such data. We cannot assure you that any assumptions made are correct or will not change and, accordingly, our position in the market may differ from that presented in this Draft Prospectus. Further, the industry data mentioned in this Draft Prospectus or sources from which the data has been collected are not recommendations to invest in our Company. Accordingly, investors should read the industry related disclosure in this Prospectus in this context.

44. ***In addition to normal remuneration, other benefits and reimbursement of expenses some of our directors (including our Promoters) are interested in our Company to the extent of their shareholding and dividend entitlement in our Company.***

Some of our directors (including our Promoters) are interested in our Company to the extent of their shareholding and dividend entitlement in our Company, in addition to normal remuneration or benefits and reimbursement of expenses. We cannot assure you that our directors would always exercise their rights as shareholders to the benefit and best interest of our Company.

Other than the interest of our Director, Manish Patel with respect to the lease of our Registered office of our Company, our Directors do not have any interest in any property acquired by our Company including in the preceding three years from the date of this Draft Prospectus. Further, our Directors do not have any interest in any transaction by our Company for acquisition of land, construction of building or supply of machinery during the three years preceding the date of this Draft Prospectus. For further information, see the chapters titled “**Our Management**”, “**Our Promoter and Promoter Group**” and “**Financial Statements**” beginning on page 131, 143 and 149, respectively of this Prospectus.

45. ***Our actual results could differ from the estimates and projections used to prepare our financial statements.***

The estimates and projections are based on and reflect our current expectations, assumptions and/ or projections as well as our perception of historical trends and current conditions, as well as other factors that we believe are appropriate and reasonable under the circumstances. There can be no assurance that our expectations, estimates, assumptions and/or projections, including with respect to the future earnings and performance will prove to be correct or that any of our expectations, estimates or projections will be achieved.

46. ***Certain agreements may be inadequately stamped or may not have been registered as a result of which our operations may be adversely affected.***

Few of our agreements may not be stamped adequately or registered. For instance, our Company has paid short stamp duty on the Leave and License Agreement. Our Company will pay appropriate stamp duty on renewal of this agreement. The effect of inadequate stamping is that the document is not admissible as evidence in legal proceedings and parties to that agreement may not be able to legally enforce the same, except after paying a penalty for inadequate stamping. The effect of nonregistration, in certain cases, is to make the document inadmissible in legal proceedings. Any potential dispute due to non-compliance of local laws relating to stamp duty and registration may adversely impact the operations of our Company.

47. ***The objects of the issue are not for any specified projects.***

The proceeds of this Issue will be used by the Issuer in accordance with applicable laws and not for any specified projects. For further details, see “**Objects of the Issue**” on page 75.

48. ***Negative publicity could damage our reputation and adversely impact our business and financial results. Reputational risk, or the risk to our business, earnings and capital from negative publicity, is inherent in our business.***

The reputation of the non-banking financial industry in general has been closely monitored as a result of the global financial crisis and other matters affecting the financial services industry. Negative public opinion about the non-banking finance industry generally or us specifically could materially adversely affect our ability to attract and retain customers and may expose us to litigation and regulatory action. While we have developed our brand and reputation over our history, any negative incidents or adverse publicity could rapidly erode customer trust and confidence in us, particularly if such incidents receive widespread adverse mainstream and social media publicity, or attract regulatory investigations. Negative publicity can result from our own or our third-party service providers’ actual or alleged conduct in any number of activities, including lending practices, mortgage servicing and foreclosure practices, technological practices, corporate governance, regulatory compliance, mergers and acquisitions, and related disclosure, sharing or inadequate protection of customer information, and actions taken by government regulators and community organisations in response to that conduct. Although we take steps to minimise reputational risk in dealing with customers and other constituencies, we, as a large financial services organisation with a high

industry profile, are inherently exposed to this risk. Any damage to our brand or our reputation may result in withdrawal of business by our existing customers, loss of new business from potential customers.

49. ***We continue to be controlled by our Promoter and Promoter Group and they will continue to have the ability to exercise significant control over us. We cannot assure you that exercise of control by our Promoter will always favour our best interest.***

Our Promoters and Promoter Group hold 85.55% of our total outstanding paid up Equity Shares as on the date of this Prospectus. Our Promoters and Promoter Group exercise significant control over us, including being able to control the composition of our Board and determine matters requiring shareholder approval or approval of our Board. Our Promoters and Promoter Group may take or block actions with respect to our business, which may conflict with our interests. By exercising their control, our Promoters and Promoters Group could delay, defer or cause a change of our control or a change in our capital structure, delay, defer or cause a merger, consolidation, takeover or other business combination involving us, discourage or encourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of us which may not favour our best interest.

50. ***Fluctuations in the market value of our investments could adversely affect our results of operations and financial condition.***

Fluctuations in the market values of our investments as part of treasury management could cause us to write down the value of our assets, affect our liquidity and reduce our ability to enforce our security, which could adversely affect our result of operations and financial condition. We may not accurately identify changes in the value of our investments caused by changes in market prices, and our assessments, assumptions or estimates may prove inaccurate or not predictive of actual results.

51. ***In the event there is any delay in the completion of the Offer, there would be a corresponding delay in the completion of the objects / schedule of implementation of this Offer which would in turn affect our revenues and results of operations.***

The funds that we receive would be utilized for the Objects of the Offer as has been stated in the Chapter “***Objects of the Issue***” beginning on page 75 of this Prospectus. The proposed schedule of implementation of the objects of the Offer is based on our management’s estimates. If the schedule of implementation is delayed for any other reason whatsoever, including any delay in the completion of the Offer, we may have to revise our business and development plans resulting in unprecedented financial mismatch and this may adversely affect our revenues and results of operations.

52. ***We have not made any alternate arrangements for meeting our capital requirements for the Objects of the Offer. Further we have not identified any alternate source of financing the Objects of the Offer. Any shortfall in raising / meeting the same could adversely affect our growth plans, business operations and financial condition***

As on date of this Draft Prospectus, we have not made any alternate arrangements for meeting our capital requirements for some of the objects of the Offer. We meet our capital requirements through, owned funds and internal accruals. Any shortfall in our net owned funds, internal accruals and our inability to raise debt in future would result in us being unable to meet our capital requirements, which in turn will negatively affect our financial condition and results of operations. Further we have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this offer or any shortfall in the Offer proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details, please refer to the chapter titled “***Objects of the Offer***” beginning on page 94 of this Prospectus.

53. ***Any variation in the utilisation of the Net Proceeds would be subject to certain compliance requirements, including prior shareholders’ approval.***

We propose to utilize the Net Proceeds for the purposes described in “***Objects of the Offer***” on page 75. At this stage, we cannot determine with any certainty if we would require the Net Proceeds to meet any other expenditure or fund any exigencies arising out of competitive environment, business conditions, economic conditions or other factors beyond our control. In accordance with Sections 13(8) and 27 of the Companies Act, 2013, we cannot undertake any variation in the utilization of the Net Proceeds without obtaining the shareholders’ approval through a special resolution. In the event of any such circumstances that require us to undertake variation in the disclosed utilization of the Net Proceeds, we may not be able to obtain the shareholders’ approval in a timely manner, or at all. Any delay or inability in obtaining such shareholders’ approval may adversely affect our business or operations.

Further, our Promoters would be required to provide an exit opportunity to Shareholders who do not agree with our proposal to change the objects of the Offer or vary the terms of such contracts, at a price and manner as prescribed by SEBI. Additionally, the requirement on Promoters to provide an exit opportunity to such dissenting shareholders may deter the Promoters from agreeing to the variation of the proposed utilization of the Net Proceeds, even if such variation is in the interest of our Company. Further, we cannot assure you that the Promoters or the controlling shareholders of our Company will have adequate resources at their disposal at all times to enable them to provide an exit opportunity at the price prescribed by SEBI.

In light of these factors, we may not be able to undertake variation of objects of the Offer to use any unutilized proceeds of the Offer, if any, or vary the terms of any contract referred to in this Draft Prospectus, even if such variation is in the interest of our Company. This may restrict our Company’s ability to respond to any change in our business or financial condition by

re-deploying the unutilized portion of Net Proceeds, if any, or varying the terms of contract, which may adversely affect our business, cash flows and results of operations.

54. *The average cost of acquisition of Equity Shares by our Promoters could be lower than the price determined at time of registering the Draft Prospectus.*

Our Promoters' average cost of acquisition of Equity Shares in our Company may be lower than the Price as may be decided by the Company in consultation with the LM. For further details regarding average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity Shares by our Promoters in our Company, please refer chapter title "*Capital Structure*" beginning on page 54 of this Prospectus

55. *The deployment of funds raised through this Offer shall not be subject to any Monitoring Agency and shall be purely dependent on the discretion of the management of our Company.*

Since the Issue size is less than ₹10,000 Lakhs, there is no mandatory requirement of appointing an Independent Monitoring Agency for overseeing the deployment of utilization of funds raised through this Issue. The deployment of these funds raised through this Issue, is hence, at the discretion of the management and the Board of Directors of our Company and will not be subject to monitoring by any independent agency. Any inability on our part to effectively utilize the Fresh Issue proceeds could adversely affect our financials. However, as per the Section 177 of the Companies Act, 2013 and applicable laws, the Board and Audit Committee of our Company would be monitoring the utilization of the Offer Proceeds.

56. *If we fail to maintain an effective system of internal controls, we may not be able to successfully manage, or accurately report, our financial risks.*

Effective internal controls are necessary for us to prepare reliable and avoid fraud. Moreover, any internal controls that we may implement, or our level of compliance with such controls, may deteriorate over time, due to evolving business conditions. We cannot assure you that deficiencies in our internal controls will not arise in the future, or that we will be able to implement, and continue to maintain, adequate measures to rectify or mitigate any such deficiencies in our internal controls. Any inability on our part to adequately detect, rectify or mitigate any such deficiencies in our internal controls may affect ability to accurately report, or successfully manage, our financial risks, and to avoid fraud, which may in turn adversely affect our business, financial condition or results of operations.

57. *We may raise further borrowings and charge our assets*

We are not barred from raising future borrowings and may charge its assets from time to time for any of such future borrowings. In the event of a default in repayment of the borrowings of the Company which will also trigger cross default of the Debentures, the borrowings of the Company which are secured with the assets of the Issuer will have a higher probability of being repaid/redeemed than the Debentures.

EXTERNAL RISK FACTORS

58. *Our business is dependent on economic growth in India.*

The performance and growth of our business are necessarily dependent on economic conditions prevalent in India, which may be materially and adversely affected by centre or state political instability or regional conflicts, a general rise in interest rates, inflation, and economic slowdown elsewhere in the world or otherwise. There have been periods of slowdown in the economic growth of India. India's economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, global economic uncertainty and liquidity crisis, volatility in exchange currency rates and annual rainfall which affects agricultural production. Any continued or future slowdown in the Indian economy or a further increase in inflation could have a material adverse effect on the price of our raw materials and demand for our products and, as a result, on our business and financial results.

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause

increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability, including the financial crisis and fluctuations in the stock markets in China and further deterioration of credit conditions in the U.S. or European markets, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our business and financial results.

59. *An outbreak of other infectious or virulent diseases, if uncontrolled, may have an adverse effect on our operations.*

An outbreak of other infectious or virulent diseases, such as severe acute respiratory syndrome, the COVID-19 virus and its variants, the H1N1 virus, avian influenza (bird flu), the Zika virus or the Ebola virus, if uncontrolled, may have a material adverse effect on the economies of certain countries and our operations. If any of our employees or the employees of our suppliers and/or customers are infected with such diseases or if a significant portion of our workforce refuses to work for

fear of contracting an infectious disease, our Company, our suppliers and/or our customers may be required to shut down operations for a period of time, and this could adversely affect our business, results of operations and financial condition.

60. *Government regulation of foreign ownership of Indian securities may have an adverse effect on the price of the Equity Shares.*

Foreign ownership of Indian securities is subject to government regulation. Under foreign exchange regulations currently in effect in India, transfer of shares between nonresidents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the rupees proceeds from the sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the Income Tax authorities. There can be no assurance that any approval required from the RBI or any other government agency can be obtained.

61. *Changing laws, rules and regulations and legal uncertainties, including adverse application of corporate and tax laws, may adversely affect our business, results of operations, financial condition and prospects.*

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes, including the instances mentioned below, may adversely affect our business, results of operations, financial condition and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy.

62. *Political, economic, legal, tax, operation and other factors that are beyond our control may have an adverse effect on our business and results of operations.*

The following external risks may have an adverse impact on our business and results of operations should any of them materialise:

- a) high rates of inflation in India and in countries where we operate our business could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins;
- b) changes in existing laws and regulations in India and in countries where we operate our business;
- c) changes in trade policies, in terms of tariff and non-tariff barriers; and
- d) a slowdown in economic growth or financial instability in India and in countries where we operate our business could adversely affect our business and results of operations.

63. *If the rate of Indian price inflation increases, our results of operations and financial condition may be adversely affected.*

In recent years, India's wholesale price inflation index has indicated an increasing inflation trend compared to prior periods. An increase in inflation in India could cause a rise in the price of transportation, wages, raw materials or any other expenses. In particular, the prices of raw materials required for fabrication of our products are subject to increase due to a variety of factors beyond our control, including global commodities prices and economic conditions. If this trend continues, we may be unable to reduce our costs or pass our increased costs on to our customers and our results of operations and financial condition may be materially and adversely affected.

64. *Any downgrading of India's debt rating by a domestic or international rating agency could have a negative impact on our business.*

India's sovereign debt rating could be downgraded due to various factors, including changes in tax or fiscal policy or a decline in India's foreign exchange reserves, which are outside our control. Any adverse revisions to India's credit ratings for domestic and international debt by domestic or international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing is available. This could have a material adverse effect on our business and financial performance, ability to obtain financing for capital expenditures and the price of our Equity Shares.

65. *Any changes in the regulatory framework could adversely affect our operations and growth prospects.*

Our Company is subject to various regulations and policies. For details refer to the Chapter titled "**Key Industry Regulations and Policies**" beginning on page 97 of this Prospectus. Our business and prospects could be materially adversely affected by changes in any of these regulations and policies, including the introduction of new laws, policies or regulations or changes in the interpretation or application of existing laws, policies and regulations. There can be no assurance that our Company will succeed in obtaining all requisite regulatory approvals in the future for our operations or that compliance issues will not be raised in respect of our operations, either of which could have a material adverse effect on our business, financial condition and results of operations.

66. *Terrorist attacks, civil unrest and other acts of violence or war involving India and other countries could adversely affect the financial markets and our business.*

Terrorist attacks and other acts of violence or war may negatively affect the Indian markets on which our Equity Shares will trade and also adversely affect the worldwide financial markets. These acts may also result in a loss of business confidence, impede travel and other services and ultimately adversely affect our business. In addition, any deterioration in relations between India and Pakistan might result in investor concern about stability in the region, which could adversely affect the price of our Equity Shares.

India has also witnessed civil disturbances in recent years and it is possible that future civil unrest as well as other/ adverse social, economic and political events in India could have a negative impact on the value of share prices generally as well as the price of our Equity Shares. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse impact on our business and the price of our Equity Shares.

Risk Related to our Equity shares

67. *The Issue Price of the Equity Shares may not be indicative of the market price of the Equity Shares after the Issue.*

The Issue Price of the Equity Shares has been determined by our Company in consultation with the LM, and through the Fixed Issue Process. This price is based on numerous factors, as described under “**Basis for Issue Price**” beginning on page 80 of this Prospectus and may not be indicative of the market price for the Equity Shares after the Issue. The market price of the Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. We cannot assure you that the investor will be able to resell their Equity Shares at or above the Issue Price.

68. *Rights of shareholders under Indian laws may differ to those under the laws of other jurisdictions.*

Indian legal principles related to corporate procedures, directors’ fiduciary duties and liabilities, and shareholders’ rights may differ from those that would apply to a company in another jurisdiction. Shareholders’ rights including in relation to class actions, under Indian law may not be similar to the shareholders’ rights under the laws of other countries or jurisdictions.

69. *The trading volume and market price of the Equity Shares may be volatile following the Issue.*

The market price of the Equity Shares may fluctuate as a result of, among other things, the following factors, some of which are beyond our control:

- Half yearly variations in our results of operations;
- results of operations that vary from the expectations of securities analysts and investors;
- results of operations that vary from those of our competitors;
- changes in expectations as to our future financial performance, including financial estimates by research analysts and investors;
- a change in research analysts’ recommendations;
- announcements by us or our competitors of significant acquisitions, strategic alliances, joint operations or capital commitments;
- announcements by third parties or governmental entities of significant claims or proceedings against us;
- new laws and governmental regulations applicable to our industry;
- additions or departures of key management personnel;
- changes in exchange rates;
- fluctuations in stock market prices and volume; and
- general economic and stock market conditions.

70. *Our Equity Shares have not been publicly traded prior to this Issue. After this Issue, our Equity Shares may experience price and volume fluctuations and an active trading market for our Equity Shares may not develop. Further, the price of our Equity Shares may be volatile, and you may be unable to resell your Equity Shares at or above the Issue Price, or at all.*

Prior to this Issue, there has been no public market for our Equity Shares. An active trading market on the Stock Exchanges may not develop or be sustained after this Issue.

The trading price of our Equity Shares after this Issue may be subject to significant fluctuations in response to factors including general economic, political and social factors, developments in India’s fiscal regime, variations in our operating results, volatility in Indian and global securities markets, developments in our business as well as our industry and market perception regarding investments in our business, changes in the estimates of our performance or recommendations by financial analysts, and announcements by us or others regarding contracts, acquisitions, strategic partnerships, joint ventures, or capital

commitments. The trading price of our Equity Shares may also decline in reaction to events that affect the entire market and/or other companies in our industry even if these events do not directly affect us and/or are unrelated to our business or operating results.

71. *Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may have an adverse effect on the value of our Equity Shares, independent of our operating results.*

On listing, our Equity Shares will be quoted in Indian Rupees on the Stock Exchanges. Any dividends in respect of our Equity Shares will also be paid in Indian Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time that it takes to undertake such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating outside India the proceeds from a sale of Equity Shares, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by Equity Shareholders. For example, the exchange rate between the Rupee and the U.S. dollar has fluctuated in recent years and may continue to fluctuate substantially in the future, which may have an adverse effect on the returns on our Equity Shares, independent of our operating results.

72. *Foreign investors are subject to foreign investment restrictions under Indian law that limit our ability to attract foreign investors, which may adversely affect the trading price of our Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the requirements specified by the RBI. If the transfer of shares is not in compliance with such requirements or falls under any of the specified exceptions, then prior approval of the RBI will be required. Further, in accordance with press note 3 of 2020, dated April 17, 2020, issued by the Department for Promotion of Industry and Internal Trade, Government of India, the FDI Policy has been recently amended to state that all investments by entities incorporated in a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country will require prior approval of the Government of India. These investment restrictions shall also apply to subscribers of offshore derivative instruments.

In addition, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no-objection or tax clearance certificate from the income tax authority. Additionally, the Indian government may impose foreign exchange restrictions in certain emergency situations, including situations where there are sudden fluctuations in interest rates or exchange rates, where the Indian government experiences extreme difficulty in stabilizing the balance of payments or where there are substantial disturbances in the financial and capital markets in India. These restrictions may require foreign investors to obtain the Indian government's approval before acquiring Indian securities or repatriating the interest or dividends from those securities or the proceeds from the sale of those securities. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

73. *Investors may have difficulty enforcing foreign judgments against us or our management.*

We are a limited liability Company incorporated under the laws of India. All our directors and executive officers are residents of India and a majority of our assets and such persons are located in India. As a result, it may not be possible for investors to effect service of process upon us or such persons outside of India, or to enforce judgments obtained against such parties outside of India.

Recognition and enforcement of foreign judgments is provided for under Section 13 of CPC on a statutory basis. Section 13 of the CPC provides that foreign judgments shall be conclusive regarding any matter directly adjudicated upon, except: (i) where the judgment has not been pronounced by a court of competent jurisdiction; (ii) where the judgment has not been given on the merits of the case; (iii) where it appears on the face of the proceedings that the judgment is founded on an incorrect view of international law or a refusal to recognize the law of India in cases to which such law is applicable; (iv) where the proceedings in which the judgment was obtained were opposed to natural justice; (v) where the judgment has been obtained by fraud; and (vi) where the judgment sustains a claim founded on a breach of any law then in force in India. Under the CPC, a court in India shall, upon the production of any document purporting to be a certified copy of a foreign judgment, presume that the judgment was pronounced by a court of competent jurisdiction, unless the contrary appears on record. However, under the CPC, such presumption may be displaced by proving that the court did not have jurisdiction.

74. *You may be subject to Indian taxes arising out of capital gains on the sale of our Equity Shares.*

Capital gains arising from the sale of equity shares within 12 months in an Indian Company are generally taxable in India. Any gain realised on the sale of listed equity shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if Securities Transaction Tax ("STT") is paid on the transaction. STT is levied on and collected by a domestic stock exchange on which equity shares are sold. Any gain realised on the sale of equity shares held for more than 12 months to an Indian resident, which are sold other than on a recognized stock exchange and on which no STT has been paid, is subject to long term capital gains tax in India. Further, any gain realised on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India. Capital gains arising from the sale of equity

shares is exempt from taxation in India where an exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident.

Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable to pay tax in India as well as in their own jurisdiction on a gain on the sale of equity shares

75. *Any future issuance of Equity Shares by us may dilute your shareholding and sales of the equity shares by our Promoter, Promoter Group or other major shareholders may adversely affect the trading price of the Equity Shares.*

We may be required to finance our growth through future equity offerings. Any future issuance of Equity Shares by us may dilute your shareholding in us. In addition, any sales of substantial amounts of the Equity Shares in the public market after the completion of the Issue, including by our Promoter or the perception that such sales could occur, could adversely affect the market price of the Equity Shares and could materially impair future ability of us to raise capital through offerings of the Equity Shares. Any future issuances of Equity Shares or the disposal of Equity Shares by our major shareholders including our Promoters, or the perception that such issuance or sales may occur, may adversely affect the trading price of our Equity Shares, which may lead to other adverse consequences including difficulty in raising capital through offering of our Equity Shares or incurring additional debt. There can be no assurance that we will not issue further Equity Shares or that the shareholders will not dispose of, pledge or encumber their Equity Shares. Any future issuances could also dilute the value of your investment in our Equity Shares. We cannot predict the effect, if any, that the sale of the Equity Shares held by our Promoter or other major shareholders or the availability of these Equity Shares for future sale will have on the market price of the Equity Shares.

76. *Holders of Equity Shares may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby suffer future dilution of their ownership position.*

A public Company incorporated in India must offer its equity shareholders pre-emptive rights to subscribe and pay for a proportionate number of equity shares to maintain their existing ownership percentages prior to issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the equity shares voting on such resolution.

However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without our filing an offer document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights, unless we make such a filing. If we elect not to file a registration statement, the new securities may be issued to a custodian, who may sell the securities for your benefit. The value such custodian receives on the sale of any such securities and the related transaction costs cannot be predicted. To the extent that you are unable to exercise pre-emptive rights granted in respect of our Equity Shares, your proportional interests in our Company would be diluted.

77. *There is no guarantee that our Equity Shares will be listed on NSE Emerge in a timely manner or at all.*

In accordance with Indian law and practice, permission for listing and trading of our Equity Shares will not be granted until after certain actions have been completed in relation to this Issue and until Allotment of Equity Shares pursuant to this Issue.

In accordance with current regulations and circulars issued by SEBI, our Equity Shares are required to be listed on the NSE Ltd within such time as mandated under UPI Circulars, subject to any change in the prescribed timeline in this regard. However, we cannot assure you that the trading in our Equity Shares will commence in a timely manner or at all. Any failure or delay in obtaining final listing and trading approvals may restrict your ability to dispose of your Equity Shares.

78. *The requirements of being a listed Company may strain our resources.*

We are not a listed Company and have historically not been subjected to the compliance requirements and increased scrutiny of our affairs by shareholders, regulators and the public at large associated with being a listed Company. As a listed Company, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur as an unlisted Company. We will be subject to the SEBI Listing Regulations which will require us to file audited annual and unaudited half yearly reports with respect to our business and financial condition. If we experience any delays, we may fail to satisfy our reporting obligations and/or we may not be able to readily determine and accordingly report any changes in our results of operations or cash flows as promptly as other listed companies.

Further, as a listed Company, we will be required to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, including keeping adequate records of daily transactions. In order to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, significant resources and management attention will be required. As a result, our management's attention may be diverted from our business concerns, which may adversely affect our business, prospects, financial condition, results of operations and cash flows. In addition, we may need to hire additional legal and accounting staff with appropriate experience and technical accounting knowledge, but we cannot assure you that we will be able to do so in a timely and efficient manner.

79. *A third party could be prevented from acquiring control of our Company because of anti-takeover provisions under Indian law.*

There are provisions in Indian law that may delay, deter or prevent a future takeover or change in control of our Company, even if a change in control would result in the purchase of your Equity Shares at a premium to the market price or would otherwise be beneficial to you. Such provisions may discourage or prevent certain types of transactions involving actual or threatened change in control of our Company. Under the Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011 (“SEBI Takeover Regulations”), an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors/shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company. Consequently, even if a potential takeover of our Company would result in the purchase of our Equity Shares at a premium to their market price or would otherwise be beneficial to its stakeholders, it is possible that such a takeover would not be attempted or consummated because of the SEBI Takeover Regulations.

80. *Rights of shareholders of companies under Indian law may be more limited than under the laws of other jurisdictions.*

Our Articles of Association, composition of our Board, Indian laws governing our corporate affairs, the validity of corporate procedures, directors’ fiduciary duties, responsibilities and liabilities, and shareholders’ rights may differ from those that would apply to a Company in another jurisdiction. Shareholders’ rights under Indian law may not be as extensive and widespread as shareholders’ rights under the laws of other countries or jurisdictions. Investors may face challenges in asserting their rights as shareholder in an Indian Company than as shareholders of an entity in another jurisdiction.

81. *If certain labour laws become applicable to us, our profitability may be adversely affected.*

India has stringent labour legislations that protect the interests of workers, including legislation that sets forth detailed procedures for dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. Any change or modification in the existing labour laws may affect our flexibility in formulating labour related policies.

82. *Investors will not be able to sell immediately on an Indian stock exchange any of our Equity Shares they purchase in the Offer.*

Our Equity Shares will be listed on the Stock Exchanges. Pursuant to applicable Indian laws, certain actions must be completed before our Equity Shares can be listed and trading in our Equity Shares may commence, including the crediting of the Investors “demat” accounts within the timeline specified under applicable law.

Furthermore, in accordance with Indian law, permission for listing of our Equity Shares will not be granted until after our Equity Shares in this Offer have been Allotted and submission of all other relevant documents authorizing the issuing of our Equity Shares. The Allotment of Equity Shares in the Offer and the credit of such Equity Shares to the applicant’s demat account with a depository participant could take approximately five Working Days from the Issue /Offer Closing Date, and trading in our Equity Shares upon receipt of final listing and trading approvals from the Stock Exchanges is expected to commence within three Working Days of the Issue/Offer Closing Date. There could be a failure or delay in listing of our Equity Shares on the Stock Exchanges. Any failure or delay in obtaining the approval or otherwise to commence trading in our Equity Shares would restrict investors’ ability to dispose of their Equity Shares. There can be no assurance that our Equity Shares will be credited to investors’ demat accounts, or that trading in our Equity Shares will commence, within the prescribed time periods or at all. We could also be required to pay interest at the applicable rates if allotment is not made, refund orders are not dispatched or demat credits are not made to investors within the prescribed time periods.

83. *There are restrictions on daily movements in the trading price of the Equity Shares, which may adversely affect a shareholder’s ability to sell Equity Shares or the price at which Equity Shares can be sold at a particular point in time.*

Our listed Equity Shares will be subject to a daily “circuit breaker” imposed on listed companies by the Stock Exchanges, which does not allow transactions beyond certain volatility in the trading price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on the Equity Shares’ circuit breaker will be set by the Stock Exchanges based on historical volatility in the price and trading volume of the Equity Shares. The Stock Exchanges are not required to inform our Company of the percentage limit of the circuit breaker, and they may change the limit without our knowledge. This circuit breaker would effectively limit the upward and downward movements in the trading price of the Equity Shares. As a result of this circuit breaker, there can be no assurance regarding the ability of shareholders to sell Equity Shares or the price at which shareholders may be able to sell their Equity Shares.

INTRODUCTION

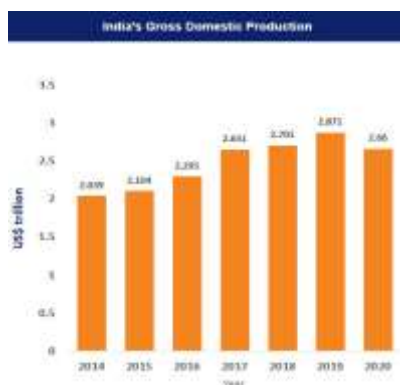

Strong economic growth in the first quarter of FY 2022-23 helped India overcome the UK to become the fifth-largest economy after it recovered from repeated waves of COVID-19 pandemic shock. Real GDP in the first quarter of 2022–23 is currently about 4% higher than its corresponding 2019-20, indicating a strong start for India's recovery from the pandemic. Given the release of pent-up demand and the widespread vaccination coverage, the contact-intensive services sector will probably be the main driver of development in 2022–2023. Rising employment and substantially increasing private consumption, supported by rising consumer sentiment, will support GDP growth in the coming months.

Future capital spending of the government in the economy is expected to be supported by factors such as tax buoyancy, the streamlined tax system with low rates, a thorough assessment and rationalisation of the tariff structure, and the digitization of tax filing. In the medium run, increased capital spending on infrastructure and asset-building projects is set to increase growth multipliers, and with the revival in monsoon and the Kharif sowing, agriculture is also picking up momentum. The contact-based services sector has largely demonstrated promise to boost growth by unleashing the pent-up demand over the period of April-September 2022. The sector's success is being captured by a number of HFIs (High-Frequency Indicators) that are performing well, indicating the beginnings of a comeback.

India has emerged as the fastest-growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years, backed by its robust democracy and strong partnerships.

MARKET SIZE

- India's nominal gross domestic product (GDP) at current prices is estimated to be at Rs. 232.15 trillion (US\$ 3.12 trillion) in FY22. With more than 100 unicorns valued at US\$ 332.7 billion, India has the third-largest unicorn base in the world. The government is also focusing on renewable sources to generate energy and is planning to achieve 40% of its energy from non-fossil sources by 2030.
- According to the McKinsey Global Institute, India needs to boost its rate of employment growth and create 90 million non-farm jobs between 2023 and 2030 in order to increase productivity and economic growth. The net employment rate needs to grow by 1.5% per annum from 2023 to 2030 to achieve 8-8.5% GDP growth between 2023 and 2030. India's current account deficit (CAD), primarily driven by an increase in the trade deficit, stood at 2.1% of GDP in the first quarter of FY 2022-23.
- Exports fared remarkably well during the pandemic and aided recovery when all other growth engines were losing steam in terms of their contribution to GDP. Going forward, the contribution of merchandise exports may waver as several of India's trade partners witness an economic slowdown. According to Mr. Piyush Goyal, Minister of Commerce and Industry, Consumer Affairs, Food and Public Distribution and Textiles, Indian exports are expected to reach US\$ 1 trillion by 2030.

RECENT DEVELOPMENTS

India is primarily a domestic demand-driven economy, with consumption and investments contributing to 70% of the economic activity. With an improvement in the economic scenario and the Indian economy recovering from the Covid-19 pandemic shock, several investments and developments have been made across various sectors of the economy. According to World Bank, India must continue to prioritise lowering inequality while also putting growth-oriented policies into place to boost the economy. ROAD AHEAD

In the second quarter of FY 2022-23, the growth momentum of the first quarter was sustained, and high-frequency indicators (HFIs) performed well in July and August of 2022. India's comparatively strong position in the external sector reflects the country's generally positive outlook for economic growth and rising employment rates. India ranked fifth in foreign direct investment inflows among the developed and developing nations listed for the first quarter of 2022.

India's economic story during the first half of the current financial year highlighted the unwavering support the government gave to its capital expenditure, which, in FY 2022–23 (until August 2022), stood 46.8% higher than the same period last year. The ratio of revenue expenditure to capital outlay decreased from 6.4 in the previous year to 4.5 in the current year, signaling a clear change in favour of higher-quality spending. Stronger revenue generation as a result of improved tax compliance, increased profitability of the company, and increasing economic activity also contributed to rising capital spending levels.

Despite the continued global slowdown, India's exports climbed at the second highest rate this quarter. With a reduction in port congestion, supply networks are being restored. The CPI-C and WPI inflation reduction from April 2022 already reflects the impact. In August 2022, CPI-C inflation was 7.0%, down from 7.8% in April 2022. Similarly, WPI inflation has decreased from 15.4% in April 2022 to 12.4% in August 2022. With a proactive set of administrative actions by the government, flexible monetary policy, and a softening of global commodity prices and supply-chain bottlenecks, inflationary pressures in India look to be on the decline overall.

Loan Application Process Flow

- **Pre-qualification:** We typically pre-qualify the borrower to determine if they meet the basic eligibility requirements for the loan. These involve checking the borrower's credit score, income, employment history, and other factors.
- **Application:** The borrower will complete a loan application, providing personal and financial information that we will use to assess their creditworthiness and determine if they qualify for the loan.
- **Underwriting:** We will evaluate the borrower's credit history, income, debt-to-income ratio, and other factors to determine the risk of extending credit to them. This involves verifying the borrower's employment and income, reviewing their credit report and financial statements.
- **Approval:** If we determines that the borrower meets their credit standards and the loan is a good risk, we will approve the loan and provide the borrower with a loan agreement outlining the terms and conditions of the loan.
- **Disbursement:** Once the borrower accepts the loan agreement, we will schedule a loan repayment, where the borrower will sign the loan documents and we will disburse the funds.
- **Servicing:** After the loan is disbursed, we will service the loan by collecting payments, managing loan accounts, and monitoring the borrower's compliance with the terms of the loan agreement

1) PAN VERIFICATION

Why is PAN verification important?

- PAN verification is an important step in the loan application process as it helps us to verify the borrower's identity, creditworthiness, and ensure loan disbursement to the correct person.

PAN Verification Process (NSDL)

- The process of PAN verification API through NSDL involves integration of the API into our loan processing system, input of PAN details of the borrower, processing of the request by NSDL's server, and response with the verification status of the PAN. This process helps us to verify the PAN details of the borrower and ensure compliance with regulatory requirements.

2) BUREAU CHECK

Credit bureau verification is important

- As it help us to determine the creditworthiness of the borrower.

- Also, we can assess the level of risk involved in lending money to a particular borrower. This allows us to make informed decisions on whether to approve a loan application and what amount to offer, which help to protect our investments and reduce the risk of defaults.
- It helps us by providing valuable information that helps to mitigate risk, payment behavior, and other financial obligations and promote financial stability.

Process of Credit bureau verification

The process typically involves the following steps:

- **Integration:** These help us to verify a client's credit information through integration with the credit bureau's API.
- **Requesting Credit Information:** The request typically includes the client's basic information, such as their name, address, PAN number and date of birth.
- **Response:** The credit bureau returns the person's credit history and credit score to us. The response includes details such as the client's credit accounts, payment history, credit limits, and any negative items such as missed payments or delinquencies.
- **Analysis:** We analyze the data to determine whether a client meets our credit requirements. This involves comparing the client's credit score to a minimum threshold, reviewing their credit history for negative items, and assessing their overall creditworthiness.

3) AADHAR E-KYC PROCESS

Aadhaar e-KYC is an electronic verification process that allows us to verify the identity of our customers using their Aadhaar number. It is an important requirement for loans because it provides a fast and secure way to verify the identity and address of a client.

- 3) Bank verifies the client's information
- 4) Bank shares the verification report to us
- 5) We analyze the response from bank

Risk management, data science and machine learning leveraged operating model

To ensure our growth is sustainable and profitable, we place strong focus on both credit quality and pricing. We have been successful in building advanced data science-driven underwriting algorithms that help us aggregate data from different mediums and generate a credit report with over 500 data points available. We believe this provides us a significant advantage over traditional lenders who, are largely dependent on excessive paperwork and manual evaluation which can be tedious and time-consuming. We believe that a large portion of the Indian population have no access to the formal credit system because of low or no credit history. We utilise artificial intelligence and machine learning to go beyond using only credit scores as a method of underwriting. Our models incorporate more than 500 variables and learn from a rapidly growing training dataset. The information used for underwriting includes data provided by the user (such as name, date of birth, KYC documents, pin code, employment details, demographic details such as, education, source of income, marital status, etc.), data we directly collect with the consent of the user (device details and transaction history), and data sourced from other sources (such as credit bureaus, analytics providers and business partners.). This is vital in making credit accessible to a larger audience.

Our systems are able to identify unique users, track their journeys, record their behavior and report on the IBL: Insta Personal Loan App's performance. This data has been vital in our marketing, sales and product management functions, allowing us to make more informed decisions when determining pricing, customizing products and improving customer experience.

We have developed a robust cohort-based collections model to efficiently follow-up and recover dues that are outstanding. Our collections capability comprises digital reminders and follow-ups for payments, tele-calling and on-ground collection management. Allocation of delinquent loans to these channels is driven by back-end analytics and payment behavior scorecards to maximize on overall debt management efficiencies.

Stable and experienced management team

We believe that the long-standing industry experience of our Promoters and our management team provides us with an understanding of the needs and behaviour of the clients particularly in rural and semi-urban Areas, the nuances of lending to these clients and issues specific to the NBFC industry in India. We believe that this expertise gives us a competitive advantage in this industry and has helped us in maintaining our resilience through industry cycles including covid period.

We have a strong, experienced and dedicated management team, including KMPs with significant industry experience and who have demonstrated their ability to deliver growth and profitability, across business cycles. Our Key Managerial Personnel includes a combination of management executives and independent members who bring in significant business experience, which positions us well to capitalize on future growth opportunities. Each of them have extensive experience in the banking or related industry such as finance, commercial operations, strategy, audit, business development, human resources, compliance and public relations.

Our Strategies

Grow existing lines of business by further enhancing our capabilities

We are committed to growing our existing product lines by attracting new users and driving engagement from existing customers through a continuously improving user experience on the IBL: Insta Personal Loan App and by providing tailored services that integrate with our existing offerings.

We plan to do this through the following initiatives:

- Further enhance our product proposition: We will continue to monitor customer sentiment, usage behaviour and customer actions to further enhance our view on customer needs and pain-points. This better understanding will enable us to enhance the attractiveness of our products for customers.
- Making customer journeys more seamless/straight through: We will focus on reducing TAT and making the process more streamlined by improving our operating model.

Eliminating external operational dependencies: We have identified external customer experience-related dependencies and we are building capabilities to eliminate such dependencies. This will enable us to offer an end-to-end integrated customer journey which will help us improve customer experience and reduce costs.

Continued investment in technology and data science capabilities

We have made significant investments in our technology infrastructure, machine learning models and data analytics capabilities to strengthen our offerings and customer experience. Going forward, we plan to continue to develop and invest in sophisticated technology to further strengthen our technology infrastructure. Further, we will continue to focus on hiring and retaining strong technology talent.

We will continue to strengthen our microservices technology architecture, an organisational software development approach that utilises a collection of small autonomous services, to make the IBL: Insta Personal Loan App more agile and scalable. For example, we have been able to roll-out innovative features such as flexible EMI dates for personal loans because of our product development skills. Our long-term approach towards building in-house technology is expected to enable us to grow while keeping costs non-linear.

We expect to introduce and over a time expects the accuracy of our machine learning models to improve as we scale-up and capture more customer data. This will enable us to improve our understanding of customers and maintain asset quality by accurately identifying credit-worthy customers.

Deepen, strengthen, and expand geographical Presence

We strive to be a low-cost, lean, and efficient digital lending Company having presence currently in two states that leverages technology and our existing distribution network to channel our products and services. Currently we operate through our registered office located at Surat, Gujarat and our digital presence is around 8 states in India. We plan to further grow our business operations by mining deeper and attracting new customers in our existing markets that remain relatively untapped as well as by entering new regions PAN India where borrowers are underserved and there is lower penetration by finance companies. We have diversified into on-line/off-line model by setting up our branches which provide us the flexibility to increase our loan size. As on the date of this Prospectus we have around 8 branches across major cities in the state of Gujarat and Maharashtra. We believe that our diversified presence and our approach of building the branch network with largely Tier I, Tier II and Tier III city focused comprehensive end-to-end customer life cycle management framework through technology, proven risk management policies, governance, and robust operating platform provide us with significant competitive advantages in carrying out our expansion plans. We believe that our existing customers serve as a foundation of our future growth and seek to prioritize their requirements and customize our offerings to provide them with optimal solutions at their doorstep.

In addition, we would seek to establish new branches in areas that are adjacent states to our existing markets, or which may have similar customer demographics and financing needs. In selecting a new business location, we utilize our well-tested area selection analysis which involves a systematic methodology that considers various key parameters such as demand for credit in the area, income levels and literacy rate of the local population, competition and market potential, economic status of the region including accessibility of internet and mobile connectivity and post offices, road access, and connectivity to important locations such as banks, schools and hospitals, as well as political, socio-economic, regulatory and other risks. We believe this allows us to identify markets where we can most easily replicate our business models.

Enhance our Brand Recall to Attract New Customers

We believe that having a strong recognizable brand is a key attribute in our business, which will help us attract and retain customers, increases customer confidence and influences purchase decisions. Having a strong and recognizable brand will also assist us in recruiting and retaining employees. We intend to continue to undertake initiatives to increase the strength and recall of our 'IBL: Instant Personal Loan' app brand to attract new customers. We seek to build our brand by engaging with existing and potential customers' through customer literacy programs, sponsor popular events in the regions we operate and advertise in newspapers, hoardings and in other advertising media. We generally undertake digital marketing initiatives to create brand awareness of our mobile app and our product offerings.

Leverage our Network, Domain Expertise and Data to Enhance Product Offering

We plan to continue to focus on personal loan offerings and increase our presence in the space. We would also introduce new loan offering for small business owners, self-employed individuals, Two-wheeler loans and B-2-B loans. While we intend to continue to focus on our core business of providing financing service, we believe additional products and cross-selling opportunities would also help strengthen our relationship with our customers and enable higher customer retention. We plan to leverage our large branch network and deep understanding of semi-urban customers, as well as harness the scale and loyalty of our customer base that we have built throughout urban and semi-urban India, to offer additional financing products to existing customers who have a positive track record of loan repayment. We expect to derive benefits from economies of scale as there is limited incremental sourcing cost for existing customers, and they are eligible to borrow higher loan amounts from us since they have progressed to higher loan cycles. We believe this strategy serves as an effective mitigation mechanism from potential interest rate volatility and would contribute to our profitability.

We seek to develop new product adjacencies based on the needs of our customers and that complement our existing loan categories. We believe that our large customer base provides significant opportunities from increased cross-selling and up-selling of products and services. We plan to continue utilizing our distribution channel to provide other financial products and services under the finance umbrella to our customers with good credit histories such as for the purchase of livelihood and productivity enhancing products including mobile handsets, bicycles and kitchen appliances.

Our Co-lending arrangements

With the capitalisation of the Company from the current Issue, we would enter into Co-lending agreements with other financial institutions, which we believe would enable us wider access to the credit market in priority sector.

As part of growth strategy, our Company propose to enter into co-lending arrangement with banks to increase its loan book by spreading the lending risk across larger and diversified loan portfolio. However, such co-lending arrangements can be entered subject to meeting certain specific criteria of such banks (co-lending partners). This criteria includes minimum period in business, credit rating, capital, AUM requirement etc. However, our Company has identified banks for entering into co-lending arrangement subject to the Company meeting its capital and AUM requirement.

The proposed IPO help us to increase our loan book. Further in line with our strategy, with the capitalization of the Company from the current Issue, we would enter into Co-lending agreements with other financial institutions, which we believe would enable us wider access to the credit market in priority sector.

As a strategy, our Company will continue to provide loan to the marginalize sections of the society. We believe that co-lending opportunities will diversify and reduce our risk exposure as we may be eligible to benefits of Various Credit Guarantee Schemes from the government. Thus, we would be able to increase our order book significantly with lower non-performing assets

Description of Our Business

Since our incorporation, we have been focused on our lending business. We changed our business model from a traditional money lender to self-employed professional and small business entrepreneurs into a Fintech company with focus on personal loan offering

under our “**IBL FINANCE**” brand.

We follow an “app-only” model for our personal loan products. We leverage our technology to make the customer journey seamless, with simple and easy-to-understand products on the IBL: Instant Personal Loan App. We plan to continue developing the IBL: Instant Personal Loan App into an integrated “multi-product” platform where we can provide a holistic experience to our customers across all our core businesses. We believe this approach will provide us with greater synergies and cross-sell opportunities, allowing us to recommend suitable products to our customers. During the Fiscal 2023, we had 3,81,156 logins and 27,969 average MAUs on the IBL: Instant Personal Loan App.

Product offerings and target customers

Personal loans are our key financial product offerings. We offer personal loans up to ₹50,000 with tenors of up to 12 months. The annual interest rates we charge on the loans disbursed during the Fiscal 2023 over 18%.

Since our launch up to March 31, 2023, we disbursed 1,63,282 loans amounting to ₹ 7105.44 lakhs. As of March 31, 2023, our AUM is ₹ 1461.18 lakhs, and during the Fiscal 2023, we disbursed 1,22,078 loans amounting to ₹ 5234.70 lakhs.

Our target segment is the young, digitally connected, middle-class and lower middle-class population in India. With our extensive range of ticket sizes and tenors, we are able to address a large number of use cases such as: (a) planned personal expenses, e.g., home renovation, travel, high ticket purchases and weddings, (b) emergency medical expenses, and (c) short-term business needs.

Customer acquisition

We acquire our customers through a combination of direct digital marketing and tele-marketing channels such as SMS and emails. As of March 31, 2023, 70% of our customers were first time personal loan borrowers and 12% of our personal loan customers are repeat customers.

Customer journey

We extend unsecured personal loans to individuals through a completely digital process on the IBL: Instant Personal Loan App. The entire customer journey for our personal loans business, including the application, disbursement and collections process is paperless. To avail a loan on the IBL: Instant Personal Loan App, the customer will electronically input their particulars including identification, work/income and other details as requested, following which they are provided approval for a maximum loan amount and tenor. After selecting the loan and EMI amount, the customer will provide their bank account details for disbursement of the loan along with other details required for KYC verification (such as proof of address, a selfie photo and contact details), and then set up auto-payment for the EMIs.

Underwriting capabilities

We have developed various technological capabilities including data models for underwriting. Our artificial intelligence-based underwriting models incorporate more than 500 variables, allowing our systems to identify unique users, track their journeys, record their behaviours and report on the IBL: Instant Personal Loan App's performance.

One of the key eligibility criteria for approving a customer's loan is the customer's repayment capacity, which is determined by factors such as the customer's age, stability and continuity of income, place of residence, geolocation, existing financial obligations, estimated living expenses. During the loan application process, our systems use a combination of automated techniques to process signals based on information provided by the customer and concurrently processes their bureau information.

We adopt an innovative cohort-based approach that segments customers based on a variety of factors including yield, risk and ticket size to identify low risk and profitable cohorts. This approach is supplemented with regular customer research and sophisticated data analytics for us to provide tailored products to our customers.

For the personal loan disbursed and outstanding as on March 31, 2023, over 91% of our personal loan customers had Equifax scores greater than 700 and over 74% had Equifax credit scores greater than 725, which we believe demonstrates a low-risk, high-quality customer profile.

Collection capabilities

We use intelligent digital collections, which allows us to classify customers into different buckets based on ease of collections and calibrate our collection efforts accordingly. Our collection infrastructure enables us to follow-up and recover dues that are outstanding. This collections capability comprises digital reminders and follow-ups for payments, collection tele-calling and outsourced field recovery capabilities. Allocation of delinquent loans to these channels is driven by back-end analytics and payment behaviour scorecards to maximize on overall debt management efficiencies. Our digital collections processes are further supplemented by 48 in-house tele-callers as well as a specialized field collection team for non-contactable cases and/or later delinquency buckets.

The following table summarizes our collection processes based on the delinquency status of a personal loan:

Delinquency bucket	Our collection action plan
Bucket 1: 0-29 days past due (DPD)	<ul style="list-style-type: none"> • Digital collections; nudges / reminders • 48+ in-house tele-callers • Field support on non-contactable cases • Customer-wise default probability prediction algorithms
Bucket 2: PAR 30 to 89	<ul style="list-style-type: none"> • 48+ in-house tele-callers • Field support on non-contactable cases • On-roll managers work with field agencies to visit borrowers • Equifax trigger alerts and legal actions are initiated (wherever relevant)
Bucket 3: PAR >90	<ul style="list-style-type: none"> • Field visits • Defined settlement policy • Skip tracing for non-contactable customers

Fraud prevention and detection

We manage fraud risk through prevention and detection. We address fraud prevention through fraud detection models that look for outlier signals in data and behaviours as triggers for fraud prevention. We continuously analyse our loan portfolio to identify emerging patterns and modus operandi which are fed back as prevention rules to improve our model. We have built an in-house fraud detection rule engine for early detection of fraud claims.

Utilising multiple data sources and anti-fraud technologies such as face recognition and geotagging, our risk management machine learning systems can discover previously unidentified factors that indicate delinquency and potential fraud cases. Early detection of fraud claims improves the customer experience through quicker turnaround times for genuine customers. We are constantly improving the robustness of this fraud detection model by updating the model with internal and external data sources.

Competition

We face competition in India from various players such as traditional lending Fintech companies, NBFC and also banks. For our personal loan businesses, we generally compete on the basis of the product offerings, ability to customize products, turnaround time and efficient loan process, ticket sizes, price, reputation and customer relationships. We face our most significant organised competition from fintech companies, micro finance company and other NBFCs, as well as from certain banks in India.

KEY INDUSTRY REGULATIONS AND POLICIES

The following description is a summary of certain sector specific laws and regulations in India, which are applicable to our Company. The information detailed in this chapter has been obtained from publications available in the public domain. The regulations set out below may not be exhaustive and are only intended to provide general information to the investors and are neither designed nor intended to substitute for professional legal advice. The statements below are based on the current provisions of the Indian law, and the judicial and administrative interpretations thereof, which are subject to change or modification by subsequent legislative, regulatory, administrative or judicial decisions.

Taxation statutes such as the IT Act, GST laws (including CGST, SGST and IGST) and applicable local sales tax statutes, labour regulations such as the Employees State Insurance Act, 1948 and the Employees Provident Fund and Miscellaneous Provisions, Act, 1952, and other miscellaneous regulations such as the Trade Marks Act, 1999 and applicable Shops and Establishments statutes apply to us as they do to any other Indian company and therefore have not been detailed below.

The major regulations governing our Company are detailed below:

We are a Non-Systematically Important, Non-Deposit taking (which does not accept public deposits), NBFC (“NBFC-NSI-ND”). As such, our business activities are regulated by RBI Regulations applicable to non-public deposit accepting NBFCs.

As at December 29, 2022, the RBI issued an updated *Master Direction - Non-Banking Financial Company - Non-Systemically Important Non-Deposit taking Company and Deposit taking Company (Reserve Bank) Directions, 2016* (as updated from time to time).

REGULATIONS GOVERNING NBFCs

A. THE RESERVE BANK OF INDIA ACT, AS AMENDED (THE “RBI” ACT)

The RBI Act defines an NBFC as: (a) a financial institution which is a company; (b) a non-banking institution which is a company and which is in the principal business of receiving deposits, under any scheme or arrangement or in any other manner, or lending in any manner; or (c) such other non-banking institution or class of institutions, as the RBI may, with the previous approval of the Central Government and by notification in the Official Gazette, specify.

As per prescribed law any company that carries on the business of a non -banking financial institution as its ‘principal business’ is to be treated as an NBFC. The term ‘principal business’ has not been defined in any statute; however, RBI has clarified through a press release (Ref. No. 1998-99/1269) issued in 1999, that in order to identify a particular company as an NBFC, it will consider both the assets and the income pattern as evidenced from the last audited balance sheet of the company to decide a company’s principal business. The company will be treated as an NBFC if its financial assets are more than 50 per cent of its total assets (netted off by intangible assets) and income from financial assets should be more than 50 per cent of the gross income. Both these tests are required to be satisfied in order to determine the principal business of a company.

Every NBFC is required to submit to the RBI a certificate, from its statutory auditor within one month from the date of finalization of the balance sheet and in any case, not later than December 30 of that year, stating that it is engaged in the business of non-banking financial institution requiring it to hold a certificate of registration.

NBFCs are primarily governed by the RBI Act, the Master Direction – Non-Banking Financial Company – Non- Systematically Important Non-Deposit taking Company (Reserve Bank) Directions, 2016, Peer to Peer Lending Platform

(Reserve Bank) Directions, 2017 (“Peer to Peer Regulations”) and Reserve Bank Commercial Paper Directions, 2017 (“Commercial Papers Directions”). In addition to these regulations, NBFCs are also governed by various circulars, notifications, guidelines and directions issued by the RBI from time to time.

Although by definition, NBFCs are permitted to operate in similar sphere of activities as banks, there are a few important and key differences. The most important distinctions are:

- i. An NBFC cannot accept deposits repayable on demand – in other words, NBFCs can only accept fixed term deposits. Thus, NBFCs are not permitted to issue negotiable instruments, such as cheques which are payable on demand; and
- ii. NBFCs are not allowed to deal in foreign exchange, even if they specifically apply to the RBI for approval in this regard, unless they have received an Authorised Dealer Category II licence from the RBI.

Types of NBFCs

Section 45-IA of the RBI Act makes it mandatory for every NBFC to get itself registered with the Reserve Bank in order to be able to commence any of the aforementioned activities.

Further, an NBFC may be registered as a deposit accepting NBFC (“NBFC-D”) or as a non-deposit accepting NBFC (“NBFC-ND”). NBFCs registered with RBI are further classified as:

- i. Asset finance companies;

- ii. Investment and Credit Companies;
- iii. Systemically Important Core Investment Company;
- iv. Loan companies;
- v. Infrastructure finance companies;
- vi. Infrastructure debt fund - NBFCs;
- vii. NBFC - micro finance institutions;
- viii. NBFC –Factors;
- ix. Mortgage guarantee companies;
- x. NBFC- non-operative financial holding company; and
- xi. Non-Banking Financial Company-Peer to Peer Lending Platform.

Our Company has been classified as a NBFC-Investment and Credit Company-Non-Deposit Taking-Non-Systematic Important (NBFC-ICC-ND-NSI).

1. Regulatory Requirements of an NBFC under the RBI Act:

Net Owned Fund

Section 45-IA of the RBI Act provides that to carry on the business of a NBFC, an entity would have to register as an NBFC with the RBI and would be required to have a minimum net owned fund of ₹ 200 lakh. For this purpose, the RBI Act has defined “net owned fund” to mean:

Net Owned Fund - The aggregate of the paid-up equity capital and free reserves as disclosed in the latest balance sheet of the company, after deducting (i) accumulated balance of losses, (ii) deferred revenue expenditure, (iii) deferred tax asset (net); and (iv) other intangible assets; and further reduced by the amounts representing:

- i. investment by such companies in shares of (i) its subsidiaries, (ii) companies in the same group, (iii) other NBFCs; and
- ii. the book value of debentures, bonds, outstanding loans and advances (including hire purchase and lease finance) made to, and deposits with (i) subsidiaries of such companies; and (ii) companies in the same group, to the extent such amount exceeds 10 per cent of (a) above.

Reserve Fund

In addition to the above, Section 45-IC of the RBI Act requires NBFCs to create a reserve fund and transfer therein a sum of not less than 20% of its net profits earned annually before declaration of dividend. Such a fund is to be created by every NBFC irrespective of whether it is a ND NBFC or not. Such sum cannot be appropriated by the NBFC except for the purpose as may be specified by the RBI from time to time and every such appropriation is required to be reported to the RBI within 21 days from the date of such appropriation.

Maintenance of liquid assets

The RBI through notification dated January 31, 1998, as amended has prescribed that every NBFC shall invest and continue to invest in unencumbered approved securities valued at a price not exceeding the current market price of such securities an amount which shall, at the close of business on any day be not less than 10% in approved securities and the remaining in unencumbered term deposits in any scheduled commercial bank; the aggregate of which shall not be less than 15% of the public deposit outstanding at the last working day of the second preceding quarter.

NBFCs such as our Company, which do not accept public deposits, are subject to lesser degree of regulation as compared to a NBFC-D and are governed by the RBI’s Master Directions.

An NBFC-ND is required to inform the RBI of any change in the address, telephone no’s, etc. of its Registered Office, names and addresses of its directors/auditors, names and designations of its principal officers, the specimen signatures of its authorised signatories, within one month from the occurrence of such an event. Further, an NBFC-ND would need to ensure that its registration with the RBI remains current.

All NBFCs (whether accepting public deposits or not) having an asset base of ₹ 10,000 lakhs or more or holding public deposits of ₹ 2,000 lakhs or more (irrespective of asset size) as per their last audited balance sheet are required to comply with the RBI Guidelines for an Asset-Liability Management System.

Similarly, all NBFCs are required to comply with “Know Your Customer Guidelines - Anti Money Laundering Standards” issued by the RBI, with suitable modifications depending upon the activity undertaken by the NBFC concerned.

NBFCs shall constitute grievance redressal machinery as contained in RBI's circular on Grievance Redressal Mechanism, vide DNBS. CC. PD. No. 320/03.10. 01/2012-13 dated February 18, 2013 which states that at the operational level, all NBFCs shall display the name and contact details of the grievance redressal officer prominently at their branches/ places where business is transacted. The designated officer shall ensure that genuine grievances of customers are redressed promptly without involving any delay. It shall be clearly indicated that NBFCs' grievance redressal machinery shall also deal with the issue relating to services provided by the outsourced agency. Generally, a time limit of 30 (thirty) days may be given to the customers for preferring their complaints/ grievances. The Bankruptcy Code offers a uniform and comprehensive insolvency legislation encompassing all companies, partnerships and individuals (other than financial firms). It allows creditors to assess the viability of a debtor as a business decision and agree upon a plan for its revival or a speedy liquidation. The Bankruptcy Code creates a new institutional framework, consisting of a regulator, insolvency professionals, information utilities and adjudicatory mechanisms, which will facilitate a formal and time-bound insolvency resolution and liquidation process.

Future upgrades to be contingent on a meaningful demonstration of satisfactory performance for a reasonable period; and (v) requiring the Mandatory signing of an Inter-Creditor Agreement (“ICA”) by all lenders, which will provide for a majority decision making criteria.

MCA vide notification dated November 15, 2019, issued the Insolvency and Bankruptcy (Insolvency and Liquidation Proceedings of Financial Service Providers and Application to Adjudicating Authority) Rules, 2019 (“FSP Rules”), inter alia governing the corporate insolvency resolution process and liquidation process of Financial Service Providers (FSPs) under the Bankruptcy Code. 2. Basis for Opinion

We conducted our audit of the Restated Standalone Financial Statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Restated Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the Restated financial statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Restated Standalone Financial Statements.

3. Information Other than the Restated Standalone Financial Statements and Auditor's Report Thereon

- A. The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the Restated Standalone Financial Statements and our auditor's report thereon. Head Office

Statements does not cover the other information and we do not express any form of assurance conclusion there on

- B. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Restated Standalone Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

4. Management's Responsibility for the Restated Standalone Financial Statements

- A. The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Restated Standalone Financial Statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the restated standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.
- B. In preparing the Restated Standalone Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors is responsible for overseeing the Company's financial reporting process.

5. Auditor's Responsibilities for the Audit of the Restated Standalone Financial Statements

- A. Our objectives are to obtain reasonable assurance about whether the Restated Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Restated Standalone Financial Statements.
- B. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
- i) Identify and assess the risks of material misstatement of the restated standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our

Head Office

opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- ii) Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
 - iii) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - iv) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Restated Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - v) Evaluate the overall presentation, structure, and content of the Restated Standalone Financial Statements, including the disclosures, and whether the Restated Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
- C. Materiality is the magnitude of misstatements in the Restated Standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Restated Standalone Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in
- i) planning the scope of our audit work and in evaluating the results of our work; and
 - ii) to evaluate the effect of any identified misstatements in the Restated Standalone Financial Statements.
- D. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- E. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Head Office

- F. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Restated Standalone Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

SIGNIFICANT FACTORS AFFECTING OUR RESULTS OF OPERATIONS

A number of important factors, including the following affect our results of operation and financial condition:

Availability of cost effective sources of capital

We have historically secured financing from individuals and corporates as Inter-company deposits. In addition, we have access to capital from our Promoter and members of the Promoter Group. Considering the size of our operations, we may not be able to secure bank financing, which is the most competitive source of funding. As a result, the availability of cost-effective funding sources affects our results of operations. The availability for funding as well as the overall cost of borrowing depends on many external factors, including developments in the Indian economy and its credit markets and, in particular, interest rate movements and the existence of adequate liquidity in the debt markets. Internal factors that affect availability of funding and our cost of borrowing include our credit ratings and available credit limits.

Volatility in borrowing and lending rates

Our results of operations depend substantially on our net interest income. Any change in interest rates would affect our interest income and our finance costs, and directly impact our results of operations because our core business is based on achieving a margin between the cost at which we can obtain funds and the yields we can achieve in extending loans. Our interest income constitutes the largest component of our revenue from operations. For the period ended July 31, 2023, Fiscals 2023, Fiscal 2021 and 2021, our interest income as a percentage of our revenue from operations was 50.41%, 88.93%, 96.69% and 96.77%, respectively.

Credit quality and provisioning

Our ability to manage the credit quality of our loan portfolio, which we measure in part through non-performing assets (“NPA”), is a key driver of our results of operations. Credit quality is the outcome of the credit appraisal mechanism and recovery system followed by us. We classify NPAs in accordance with the NBFC-ND-NSI Directions and applicable Ind AS rules. Defaults by our customers for a period of 90 days or more result in such loans being classified as Stage 3 and NPA.

Technological Capabilities

We are a technology-driven business utilising data analytics capabilities and since our inception, we have made significant investments in our technology infrastructure. Our technology capabilities comprise customer facing portals, loan management and accounting capabilities that enable high transaction volumes, in-house underwriting engines, fraud risk management capabilities for fraud prevention and detection, and multiple process automation workflows to enable efficient back-end operations. Our systems are also able to identify unique users, track their journeys, record their behaviour and report on the IBL: Instant Personal Loan App’s performance. This data has been vital in our marketing, sales and product management functions, allowing us to make more informed decisions when determining pricing.

Our ability to scale our operations faster while improving cost efficiencies will be driven by the effective utilisation of these technological capabilities. Our customer acquisition costs will also be determined by our ability to generate cross-sell and up-sell opportunities through the IBL: Instant Personal Loan.

Availability of cost effective sources of financing

The availability of cost-effective sources of financing affects our business and results of operations. We have historically secured financing through loans and capital infusion. For our lending business, our total external borrowings amounted to ₹9.12 lakhs, ₹640.58 lakhs and NIL as of Fiscal 2023, Fiscal 2022 and Fiscal 2021, respectively.

Our Borrowing Rates and Lending Rates

Our results of operations depend primarily on our net interest income, which is the difference between our interest income and our finance costs. Any change in interest rates on our borrowings would affect our finance costs as well as our net interest income and net interest margin.

Any change in interest rates that we charge our customers affects our interest income as well as our net interest income and net interest margin.

Ability to Attract and Retain Customers and Generate Loan Volumes

Our growth is dependent on our ability to continue to attract new customers, retain existing customers and cultivate loyalty through cross-selling and up-selling, repeat loans and service renewal. Further, the volume of loans that we approve and disburse is a primary driver of our total income.

We extend unsecured personal loans to individuals through an entirely digital process on the IBL: Instant Personal Loan App which commenced from Fiscal 2020. We source our personal loans customers through online marketing channels and direct digital channels. We believe our digital lending process is one of the key differentiators driving customer growth in our personal loans business line.

Competition

We face competition in India from various players such as traditional lending Fintech companies, NBFC and also banks. For our personal loan businesses, we generally compete on the basis of the product offerings, ability to customize products, turnaround time and efficient loan process, ticket sizes, price, reputation and customer relationships. We face our most significant organised competition from fintech companies, micro finance company and other NBFCs, as well as from certain banks in India.

Credit Quality and Provisioning

Our ability to manage the credit quality of our loans is a key driver of our results of operations. Our total loan portfolio has grown in the last few years, and we anticipate that the size of our loan portfolio will continue to grow in the future as we pursue our expansion strategy. The increase in the size of our total loan portfolio will change the credit quality of our loan portfolio and our NPAs, leading to a corresponding change in our provisions and write-offs, thereby driving our profitability and margins.

PHASED IMPLEMENTATION OF UNIFIED PAYMENTS INTERFACE

SEBI has issued a UPI Circulars in relation to streamlining the process of public Issue of equity shares and convertibles. Pursuant to the UPI Circulars, UPI will be introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by RIIs through intermediaries with the objective to reduce the time duration from public Issue closure to listing from six working days to up to three working days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI Mechanism, the UPI Circular proposes to introduce and implement the UPI Mechanism in three phases in the following manner:

Phase I:

This phase was applicable from January 1, 2019, until March 31, 2019, or floating of five main board public issues, whichever was later. Subsequently, the timeline for implementation of Phase I was extended until June 30, 2019. Under this phase, an RII also had the option to submit the ASBA Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing would continue to be six Working Days.

Phase II:

This phase has become applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019, has decided to extend the timeline for implementation of UPI Phase II until March 31, 2020. Under this phase, submission of the physical ASBA Form by an RII through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds has been discontinued and is replaced by the UPI payment mechanism. However, the time duration from public issue closure to listing continues to be six Working Days during this phase. Subsequently, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, extended the timeline for implementation of UPI Phase II till further notice.

Phase III:

SEBI Circular SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 UPI Phase II was extended till March 31, 2020. Subsequently, the final reduced timeline of T+3 days for the UPI Mechanism for applications by UPI Bidders (“**UPI Phase III**”) and modalities of the implementation of UPI Phase III was notified by SEBI vide its circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 and made effective on a voluntary basis for all issues opening on or after September 1, 2023 and on a mandatory basis for all issues opening on or after December 1, 2023. The Issue will be undertaken pursuant to the processes and procedures as may be prescribed by the SEBI from time to time. Accordingly, upon commencement of Phase III, the reduced time duration shall be applicable for the Issue.

The Issue will be made under UPI Phase II of the UPI Circulars, unless Phase III of the UPI Circulars becomes mandatorily effective and applicable on or prior to the Issue Opening Date. If the Issue is made under UPI Phase III of the UPI Circulars, the same will be advertised in shall be advertised in all editions of a widely circulated English national daily newspaper, all editions of a widely circulated Hindi national daily newspaper, and all editions of Gujrati newspaper (Gujrati being the regional language of Gujarat, where our Registered Office is located), on or prior to the Issue Opening Date and such advertisement shall also be made available to the Stock Exchanges for the purpose of uploading on their websites.

All SCSBs offering the facility of making application in public issues shall also provide facility to make application using UPI. Our Company will be required to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and/or payment instructions of the UPI Bidders using the UPI.

Pursuant to the UPI Circulars, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circulars include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one Working Day from the date on which the Basis of Allotment is finalized. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors’ complaints, the relevant SCSB as well as the post-Issue LM will be required to compensate the concerned investor.

Further, in terms of the UPI Circulars, the payment of processing fees to the SCSBs shall be undertaken pursuant to an application made by the SCSBs to the LM, and such application shall be made only after (i) unblocking of application amounts for each application received by the SCSB has been fully completed, and (ii) applicable compensation relating to investor complaints has been paid by the SCSB.

The DPIIT also issues the Consolidated Foreign Direct Investment Policy (“FDI Policy”) from time to time. The regulatory framework pertaining to foreign investment, over a period of time, thus, consists of acts, regulations, master circulars, press notes, press releases, and clarifications among other amendments.

India’s current FDI Policy issued by the DPIIT with effect from October 15, 2020, consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT till October 15, 2020. All the press notes, press releases, clarifications on FDI issued by DPIIT till October 15, 2020 stand rescinded as on October 15, 2020. In terms of the FDI Policy, Foreign investment is permitted (except in the prohibited sectors) in Indian companies either through the automatic route or the Government route, depending upon the sector in which foreign investment is sought to be made. In terms of the FDI Policy, the work of granting government approval for foreign investment under the FDI Policy and FEMA Regulations has now been entrusted to the concerned Administrative Ministries/Departments.

The FDI Policy issued by the DPIIT permits foreign investment upto 100% of paid-up equity share capital of non-banking financial companies under the automatic route subject to compliance of certain conditions mentioned in the FDI Policy. The Company will be required to make certain filings with the RBI after the completion of the Issue.

In accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country, will require prior approval of the Government, as prescribed in the FDI Policy and the Foreign Exchange Management (Non-debt Instruments) Rules, 2019. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020 issued on December 8, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank of fund in India.

Further, the existing individual and aggregate investment limits for an FPI in our Company are not exceeding 10% of the total paid-up Equity Share capital of our Company for each FPI and the total holdings of all FPIs in the Company shall not exceed 24% of the total paid-up Equity Share capital of our Company. The RBI, in exercise of its power under the FEMA, has also notified Foreign Exchange Management (Non-debt Instruments) Rules, 2019 (“Rules”) and Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 to prohibit, restrict or regulate, transfer by or issue security to a person resident outside India. SEBI registered FPIs have been permitted to purchase shares of an Indian company through the Issue, subject to total FPI investment being within the individual FPI/sub account investment limit of less than 10% of the total paid-up equity capital on a fully diluted basis of the Company subject to the total holdings of all FPIs/sub accounts including any other direct and indirect foreign investments in the Company shall not exceed 24% of the paid-up equity capital of the Company on a fully diluted basis. The aggregate limit of 24% in case of FPIs may be increased up to the sectoral cap/statutory ceiling, as applicable, by the Company concerned by passing of resolution by the Board of the Company to that effect and by passing of a special resolution to that effect by its Shareholders.

With effect from April 1, 2020, the aggregate limit of 24% has increased to the sectoral cap applicable to the Indian Company which in case of the Company is 100% provided that the Company complies with conditions provided under the FDI Policy. As per the Rules, the aggregate limit as provided above was permitted to be decreased by the Company to a lower threshold limit of 24% or 49% or 74% as deemed fit, with the approval of its Board of Directors through a resolution and also of its shareholders by means of a special resolution, before March 31, 2020. The Company has not passed such Board Resolution and hence, has not revised its sectoral caps. Further, eligible NRIs and OCIs investing on repatriation basis are subject to individual investment limit of 5% of the total paid-up equity capital on a fully diluted basis subject to the aggregate paid-value of the shares purchased by all NRIs and OCIs put together on repatriation basis not exceeding 10% of the total paid-up equity capital on a fully diluted basis of the Company.

The transfer of shares between an Indian resident and a Non-resident does not require prior approval of RBI, subject to fulfillment of certain conditions as specified by DPIIT/RBI, from time to time. Such conditions include (i) the activities of the investee company are under the automatic route under the FDI Policy and transfer does not attract the provisions of the SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 2011; (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI.
