Our Group Company, M/s Laxmi Goldorna House Limited is involved in line of business that may potentially compete with our Company or is authorized to carry out business, similar to that of our Company. We may hence have to compete with our Group Company for business, which may impact our business, financial condition and results of operations. The interests of our Promoters or Promoter Groups may also conflict in material aspects with our interests or the interests of our shareholders. For further details, please refer “Promoter / Principal Shareholder” and “Information with respect to Group Companies” beginning on page no. 126 and 181 of this Draft Prospectus. Further, our Promoters may become involved in ventures that may potentially compete with our Group Company. The interests of our Promoters or Promoter Groups may conflict with the interests of our other Shareholders and our Promoters may, for business considerations or otherwise, cause our Company to take actions, or refrain from taking actions, in order to benefit themselves instead of our Company's interests or the interests of its other Shareholders and which may be harmful to our Company's interests or the interests of our other Shareholders, which may impact our business, financial condition and results of operations.

We have not entered into any non-compete agreement with our Promoters and/or Promoter Groups and/or our Group Entities. We cannot assure you that our Promoters and/or our Group Entities and/or members of the Promoter Group will not compete with our existing business or any future business that we may undertake or that their interests will not conflict with ours. Any such present and future conflicts could have a material adverse effect on our reputation, business, results of operations and financial condition.

7. We have not obtained the registration of our trademarks used in our businesses and our inability to obtain or maintain these registrations may adversely affect our competitive business position

Our Corporate logo “  ” and our Brand logo “  ” and “  ” are not registered and we have made an application for registration with the Trademark Registry. Till the Trademarks are not granted, we do not enjoy the statutory protections accorded to a registered trademark and are subject to the various risks arising out of the same, including but not limited to infringement or passing off our name and logo by a third party.

For further details, please refer the chapter titled “Government and Other Statutory Approvals” on page 179 of this Draft Prospectus. The application made for registration of all the three Trademarks is currently *pending for approval*. The registration of any trademark is a time-consuming process, and there can be no assurance that any such registration will be granted as and when applied. In the absence of such registration, competitors or other companies may challenge the validity or scope of our intellectual property. These trademarks are integral to our business, and the loss of any of these intellectual property rights could have a material adverse effect on our business. There can be no assurance that we will be able to obtain the registration of our trademarks in a timely manner, or at all. If any of our unregistered trademarks are registered in favour of a third party, we may not be able to claim registered ownership of such trademarks and consequently, we may be unable to seek remedies for infringement of those trademarks by third parties other than relief against passing off by other entities. If our application is objected, we will not have the right to use this trademark or prevent others from using this trademark or its variations. Our inability to obtain or maintain this trademark in our business thus could adversely affect our reputation, goodwill, business and results of operations

8. The Company is dependent upon few Suppliers for purchase of major portion of our Raw Material.

The main raw material is gold and our top ten suppliers contribute 93.89% and 79.62% of our total purchases for the year ended March 31, 2019 and March 31, 2018 respectively. The discontinuation of any of this large supplier will not significantly affect our operations, revenue and profitability as the raw material can be procured easily from other suppliers.

9. Our top ten customers contribute approximately 93.92% of our revenues for the period ended March 31, 2019. Any loss of business from one or more of them may adversely affect our revenues and profitability.

Our top ten customers contribute approximately 93.92% and 99.14% of our revenues for the period ended March 31, 2019 and March 31, 2018. Any decline in our Quality standards, growing competition and any change in the demand for our services by these customers may adversely affect our ability to retain them. We cannot assure that we shall generate the same quantum of business, or any business at all, from these customers, and loss of business from one or more of them may adversely affect our revenues and profitability. However, the composition and revenue generated from these clients might change as we continue to add new clients in normal course of business. We intend to retain our customers by offering solutions to address specific needs in a proactive, cost effective and time efficient manner. This helps us in providing better value to each customer thereby increasing our engagement with our new and existing customer base that presents a substantial opportunity for growth. For further of our ten top customers, please refer chapter titled “*Management’s Discussion & Analysis of Financial Conditions & Results of Operations*” beginning on Page 165 of Draft Prospectus.

10. There are no long-term supply agreements with our vendors/suppliers. Our Business may be adversely affected if there is any disruption in the raw material supply or due to non-availability of raw material.

We do not have any long-term agreements with our vendors/suppliers; we operate on a purchase order system. In absence of any formal contract with our vendors/suppliers, we are exposed to the risks of irregular supplies or no supplies at all or delayed supplies or price variation which would materially affect our results of operations. In the event of any disruption in the raw material supply or the non-availability of raw material in the required quantity and quality from alternate source, the production schedule may be adversely affected impacting the sales and profitability of the Company.

11. We face significant competition. Any failure to compete effectively may have a material adverse effect on our business and operations.

In India jewellery industry is highly divided between organised sector and unorganized sector. If we fail to create a position or our existing position deteriorates, the operating results or financial condition will get adversely affected. Aggressive discounting and marketing by competitors may also adversely impact our performance for a temporary period. We may in future experience increase competition from existing or new wholesale traders of jewellery industry. Due to increase in competition, we may temporarily experience downward pressure on prices, lower demand for our products, reduced margins and a loss of market share, all of which would have an adverse impact on our business and results of operations.

12. We have had certain inaccuracy in relation to regulatory filings to be made with the RoC and our company has made non-compliances of certain provision under applicable law.

Our Company has in the past not complied with certain provisions of the Companies Act, 1956 and the Companies Act, 2013. For instance, the forms which were filed with the Registrar of Companies have some factual discrepancy and errors and also belatedly filed. Also, our company has not filed some of the forms relating to registering the resolutions with the Registrar of Companies in case of allotment of shares. Also, our Company has not made modification of charges filed in Registrar of Companies on timely manner and some share transfer forms are also not available with the company in records. Although no show cause notice have been issued against the Company till date in respect of above, in the event of any cognizance being taken by the concerned authorities in respect of above, penal actions may be taken against the Company and its directors, in which event the financials of the Company and its directors may be affected.

13. We may not be able to implement our growth strategy successfully.

We may not be able to achieve our planned rate of expansion for our jewellery business. If we are unable to implement our growth strategies successfully, our future growth in income and profits may be adversely affected. In order to expand our business operations successfully, we should enhance our production capacity and access new markets and operate in a profitable manner. If we are unable to access new markets or introducing new designed jewellery in timely manner, it is likely to affect our ability to meet these expansion plans.

There can be no assurance that we will be able to achieve our expansion goals, in a timely manner, or at all, or that our expansion plans will be profitable. If we fail to continue to improve our infrastructure or managerial capacity and manpower our growth rate and operating results could be adversely affected.

14. Any fluctuation and variation in price and supply of gold, which is a major raw material for the manufacture of our products, could adversely impact our income.

Gold is the primary raw materials used for our business. Price of gold is volatile in nature and is linked to the international commodity indices. Although we source gold and sell our products on an unfixed basis, any decrease in the prices of gold shall result in the consequent decrease in the price of inventory held in stock. Such uncertainty of gold price may have adverse impact on financial position and profitability of our company.

15. The RBI has advised banks to classify accounts of jewellers as 'high-risk', requiring banks to apply enhanced due diligence before granting loans to jewellers.

This may adversely affect our ability to obtain financing in a timely manner and on acceptable terms, or at all. By a circular dated December 30, 2010, RBI has advised banks to classify accounts of jewellers as 'high-risk', requiring banks to apply enhanced due diligence measures before granting loans to jewellers. Further, pursuant to such categorization, accounts of jewellers are subject to intensified monitoring by banks. These developments may adversely affect availability of bank credit to the jewellery sector in general and may lead to higher cost of bank credit, as banks may charge higher rates of interest and demand enhanced security from jewellers. This may adversely affect our ability to obtain adequate financing in a timely manner and on acceptable terms, or at all, and further may substantially raise our interest costs, which may have an adverse effect on our business, results of operations and financial condition.

16. We are subject to restrictive covenants under our credit facilities that could limit our flexibility in managing our business operations.

There are restrictive covenants in the agreements we have entered into with our lenders. The agreements governing certain of our debt obligations include terms that require us to, among other things, take prior approval of our lenders for undertaking any change in capital structure, pledge, lien, consolidation, reorganization, dissolution, amendment or modification of our charter documents, etc. Such restrictive covenants in our loan documents may restrict our operations or ability to expand and may adversely affect our business. For details of these restrictive covenants, see the chapter titled "Financial Indebtedness" on page 173 of this Draft Prospectus.

17. If we fail to develop and introduce new jewellery designs that achieve customer acceptance could result in a loss of market opportunities.

As on date, we developed design of our jewellery in house or sometimes we may get the design prepared outside on job work basis. As such we are responsible for introducing new and innovative designs. Our business highly depends on innovative designs to meet the expectations of our customers. The new design developed for the prospective customer may not be acceptable and unable to meet the preferences of customers or their requirement which could result into obsolete

inventory. In addition to this, due to the competitive nature of the jewellery market in which we operate, the innovative designs remain the key differentiators, which normally possess short life span.

18. *Our business is occasional in nature with significant sales during the festive season and other significant seasons. In case, we are unable to cope up with the demand during this time, then our revenues and profitability will be affected and have a negative effect on our image.*

Our business is occasional in nature with a significant proportion of our sales generated during the festive seasons like Diwali season, Valentine's Day, Raksha Bandhan, AkshayTritiya, Guru Pushya Nakshatra, Christmas etc. and during Marriage seasons. If our Company is unable to cope up with the demand and requirement of the customers during the Festive and Marriage seasons, our profitability will be adversely affected on account of reduction of sales. Further we may not be able to recover the shortfalls of sales of such periods. We expect to continue to experience a seasonal fluctuation in our sales and income. We have limited ability to compensate for shortfalls in our sales or income during such periods by introducing changes in operations and strategies for rest of the year, or to recover from any extensive disruption, i.e. due to sudden adverse changes in consumer confidence, global pricing of gold, lower disposable income, etc. A significant shortfall in sales during these periods would therefore be expected to have a material adverse effect on our results of operations.

19. *We have entered into certain transactions with related parties. These transactions or any future transactions with our related parties could potentially involve conflicts of interest.*

We have entered into certain transactions with related parties with our Directors, their relatives, Group Entities and may continue to do so in future. Our Company has entered into such transactions due to easy proximity and quick execution. However, there is no assurance that we could not have obtained better and more favourable terms than from transaction with related parties. Additionally, our company trusts that all our related party transactions have been conducted on an arm's length basis, but we cannot provide assurance that we could have achieved more favourable terms had such transactions been entered with third parties. Our Company may enter into such transactions in future also and we cannot assure that in such events there would be no adverse effect on results of our operations, although going forward, all related party transactions that we may enter will be subject to board or shareholder approval, as under the Companies Act, 2013 and the Listing Regulations. For details of transactions, please refer to "Annexure X" Related Party Transactions" on page 161 of Restated Financial Information.

20. *We get of our jewellery manufactured on job work basis from third party manufacturers.*

The operations of our Company are subject to manufacturing risk by failure in the facilities which may further result in delay in supply of our products. We get our jewellery manufactured on job work basis from third party manufacturers. Due to the nature of its business and despite compliance with requisite safety requirements and standards, the operations of our Company are subject to operating risks associated with jewellery manufacturing. Operating risks to our job workers may include personal injury and property damage and in the imposition of civil and criminal penalties. The occurrence of any of these events could have a material adverse effect on our business, financial condition and future results of operations of our Company. Also, the manufacturing facilities of our third-party manufacturers are subject to operating risks, such as the breakdown or failure of equipment, power supply or processes, performance below expected levels of output or efficiency, obsolescence, earthquakes other natural disasters and industrial accidents. Occurrence of any of the aforesaid instance may result in delay as our suppliers may not be able to deliver the products in a timely manner in such cases and such delays could adversely affect our business.

21. Our failure to keep up with industry trends may affect our results of operations.

Jewellery companies and industry has been continuously adding new products. Although we have maintained a high portfolio of designs and keep pace with the consumers' requirements, we cannot assure you that we shall be able to consistently keep up with industry trends which may adversely affect our results of operations. Introduction of any new portfolios in jewellery makes and designs may affect our current business. Further, we have not entered into any confidentiality or non-disclosure agreement with any of our job workers and consequently, our jewellery designs may be shared openly in the market which may damage our results of operations.

22. Our Promoters, Directors and key Managerial Personnel may have interest in our Company, other than reimbursement of expenses incurred or remuneration.

Our Promoter and Directors may be deemed to be interested to the extent of the Equity Shares held by them and benefits deriving from their shareholding in our Company. Our Promoter are interested in the transactions entered into between our Company and themselves as well as between our Company and our Group Entities. For further details, please refer to the chapters titled "Business Overview" and "Promoters / Principal Shareholders", beginning on page 85 and 126 respectively and the refer "Annexure X - Related Party Transactions" on page 161 under chapter titled "Restated Financial Statements" beginning on page 134 of this Draft Prospectus.

23. There is no monitoring agency appointed by Our Company and the deployment of funds are at the discretion of our Management and our Board of Directors, though it shall be monitored by our Audit Committee.

As per SEBI (ICDR) Regulations, 2018, as amended, appointment of monitoring agency is required only for Issue size above Rs. 100 crores. Hence, we have not appointed any monitoring agency to monitor the utilization of Issue proceeds. However, the audit committee of our Board will monitor the utilization of Issue proceeds in terms of SME Listing Agreement. Further, our Company shall inform about material deviations in the utilization of Issue proceeds to NSE.

24. We have unsecured loans from directors and relatives of directors, which are repayable on demand. Any demand from lenders for repayment of such unsecured loans, may adversely affect our business operations.

As per our restated financial statements, as on March 31, 2019 we have unsecured loan of Rs. 18.11 lakhs from directors and relatives of directors which are repayable on demand. Any demand from lenders for repayment of such unsecured loans, may adversely affect our liquidity and business operations. For further details of these unsecured loans, please refer to Chapter titled "Restated Financial Statements" beginning on page 134 of this Draft Prospectus.

25. We have experienced negative cash flows in previous years / periods. Any operating losses or negative cash flow in the future could adversely affect our results of operations and financial condition.

Our Company had negative cash flows from our operating activities in the previous years as per the Restated Financial Statements and the same are summarized as under.

(Rs. in lakhs)

Particulars	2019	2018	2017
Net Cash Generated from Operating Activities	202.30	(868.05)	106.44

Cash flow of a Company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and to make new investments without raising finance from external resources. Any operating losses or negative cash flows could adversely affect

our results of operations and financial conditions. If we are not able to generate sufficient cash flows, it may adversely affect our business and financial operations.

26. *Loans availed by our Company have been secured on personal guarantees of our Promoter and Promoter Group members. Our business, financial condition, results of operations, cash flows and prospects may be adversely affected in case of invocation of any personal guarantees or collateral securities provided by our Promoters and Promoter Group.*

Our Promoters and Promoter Group have provided personal guarantees as security to secure our existing borrowings taken from different Banks and may continue to provide such guarantees and other security post listing. In case of a default under our loan agreements, any of the personal guarantees provided by our Promoters/Promoter Group may be invoked and/ or the security may also be enforced, which could negatively impact the reputation and net worth of the Promoters. Also, we may face certain impediments in taking decisions in relation to our Company, which in turn would result in a material adverse effect on our financial condition, business, results of operations and prospects and would negatively impact our reputation. In addition, our Promoters and Promoter Group may be required to liquidate their shareholding in our Company to settle the claims of the lenders, thereby diluting their shareholding in our Company. We may also not be successful in procuring alternate guarantees/ alternate security satisfactory to the lenders, as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could affect our financial condition and cash flows. However, we are following policy of complying with all terms and conditions of loan agreements and we ensure timely compliance of its terms. For further details regarding loans availed by our Company, please refer “*Business Overview*” on page 85 of this Draft Prospectus.

27. *Our success depends heavily upon our Promoter and Senior Management for their continuing services, strategic guidance and financial support.*

Our success depends heavily upon the continuing services of Mr. Vijay Shah and Mrs. Alpaben Shah who are the natural persons in control of our Company. They currently serve as our Chairman and Managing Director and Chief Financial Officer & Whole Time Director and their experience and vision had played a key role in obtaining our current reputation and status in the market. We would depend significantly on our Key Managerial Persons for continuing our business operations successfully. If any member of the senior management team is unable or unwilling to continue in his present position, we may not be able to replace him easily or at all, and our business, financial condition, results of operations and prospects may be materially and adversely affected.

28. *We have not identified any alternate source of financing the ‘Objects of the Issue’. If we fail to mobilize resources as per our plans, our growth plans may be affected.*

We have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this Issue which may delay in the implementation schedule and could adversely affect our growth plans. For further details of object of Issue and schedule of implementation please refer to the chapter titled “*Objects of the Issue*” on page 64 of this Draft Prospectus.

29. *Our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements, restrictive covenants and capital expenditures.*

Our future ability to pay dividends will depend on our earnings, financial condition and capital requirements. Dividends distributed by us will attract dividend distribution tax at rates applicable from time to time. There can be no assurance that we will generate sufficient income to cover the operating expenses and pay dividends to the shareholders. Our ability to pay dividends will also depend on our expansion plans. We may be unable to pay dividends in the near or medium term, and the future dividend policy will depend on the capital requirements and financing arrangements for the business plans, financial condition and results of operations. For details of our dividend history, see “*Dividend Policy*” on page 133 of this Draft Prospectus.

30. Our Promoter and members of the Promoter Group will continue jointly to retain majority control over our Company after the Issue, which will allow them to determine the outcome of matters submitted to shareholders for approval.

Post this Issue, our Promoter and Promoter Group will collectively own 73.19% of our equity share capital. As a result, our Promoter, together with the members of the Promoter Group, will continue to exercise a significant degree of influence over Company and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act, 2013 and our Articles of Association. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control of our Company.

In addition, our Promoter will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or other shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

31. Our business depends, in part, on factors affecting consumer spending that are out of our control.

Jewellery purchases are discretionary and are often perceived to be a luxury purchase. Our business is sensitive to a number of factors that influence consumer spending. In addition, we compete with other retail categories, for e.g. electronics, travel and other FMCG products for consumers' discretionary expenditure. Therefore, the price of jewellery relative to other products influences the proportion of consumers' expenditure that is spent on jewellery. Other factors include general economic conditions, consumer confidence in future economic conditions and political conditions, recession and fears of recession, consumer debt, disposable consumer income, conditions in the housing market, consumer perceptions of personal well-being and security, fuel prices, inclement weather, interest rates, sales tax rate increases, inflation, and war and fears of war. Most of our customers are individuals who purchase jewellery for personal use and who are generally less financially resilient than the corporate entities. In particular, an economic downturn may lead to decreased discretionary spending, which can adversely impact the luxury retail operations and lead to declining income and losses for our business, resulting in a continued reduction in our sales and further harming our business and results of operation.

32. We operate in a highly competitive environment and face competition in our business from organized and unorganized players, which may be adversely affect our business operation and financial condition.

The market for our products is competitive on account of both the organized and unorganized players. Players in this industry generally compete with each other on key attributes such as inventory level, quality of products, reputation and brand value, customer base, pricing and timely delivery. Some of our competitors may have longer industry experience and greater financial, technical and other resources, which may enable them to react faster in changing market scenario and remain competitive. Moreover, the unorganized sector offers their products at highly competitive prices which may not be matched by us and consequently affect our volume of sales and growth prospects. Growing competition may result in a decline in our market share and may affect our margins which may adversely affect our business operations and our financial condition. Additionally, we face competition through e-commerce retailers. E-commerce platforms not only provide medium to the unorganised sector to showcase their products but also provide a substantial visibility and as a result could have more established presence vis-à-vis compared to us.

33. *Our Company has not obtained Lenders consent*

Under our financial arrangement with our creditor, we are required to obtain the prior written consent for, amongst other matters, changes in the capital structure of the Company. We have made an application to obtain written consent, as required, from our Creditor, however we haven't received the consent from them as on the date of this Draft Prospectus. Failure to obtain the same before going for ROC approval will thereby restrict us from opening the Issue.

34. *Our insurance coverage may not be adequate to protect us against all potential losses to which we may be subject and this may have a material effect on our business and financial condition.*

While we maintain insurance, coverage related to our Stocks and other insurance for movable assets. We may not have sufficient insurance coverage to cover all possible economic losses, including when the loss suffered is not easily quantifiable and in the event of severe damage to our business. Even if we have made a claim under an existing insurance policy, we may not be able to successfully assert our claim for any liability or loss under such insurance policy. Additionally, there may be various other risks and losses for which we are not insured either because such risks are uninsurable or not insurable on commercially acceptable terms. The occurrence of an event for which we are not adequately or sufficiently insured could have an effect on our business, results of operations, financial condition and cash flows.

In addition, in the future, we may not be able to maintain insurance of the types or at levels which we deem necessary or adequate or at rates which we consider reasonable. The occurrence of an event for which we are not adequately or sufficiently insured or the successful assertion of one or more large claims against us that exceed available insurance coverage, or changes in our insurance policies (including premium increases or the imposition of large deductible or co-insurance requirements), could have an effect on our business, results of operations, financial condition and cash flows.

For further details of our Insurance Policies, please refer chapter titled "*Business Overview*" beginning on Page 85 of this Draft Prospectus

35. *We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.*

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and cause serious harm to our reputation. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

36. *Fraud, theft, employee negligence or similar incidents may adversely affect our results of operations and financial condition.*

We maintain large amounts of inventory at our premises at all times. Although we have set up security measures, our operations may be subject to incidents of theft or damage to inventory. There can be no assurance that we will not experience any fraud, theft, employee negligence, security lapse, loss in transit or similar incidents in the future which could adversely affect our results of operations and financial condition. Additionally, in case of losses due to theft, fire, breakage or damage caused by other casualties, there can be no assurance that we will be able to recover from our insurer the full amount of any such loss in a timely manner, or at all. If we incur a significant inventory loss due to third-party or employee theft and if such loss exceeds the limits of, or is subject to an exclusion from, coverage under our insurance policies, it could have a material adverse effect on our business, results of operations and financial condition. In addition, if we file claims under an insurance policy it could

lead to increases in the insurance premiums payable by us or the termination of coverage under the relevant policy.

37. We may not be able to sustain if there is no effective implementation of our business and growth strategy.

Success of our business will depend greatly on our ability to effectively implement our business and growth strategy. We cannot provide assurance that we will be able to execute our strategy on time and within the estimated budget, or that we will meet the expectations of targeted customers. Changes in regulations applicable to the industry in which we operate may also make it difficult to implement our business strategy. Inability on our part to manage our business and effectively implement growth strategy could have a material adverse effect on our business, financial condition and profitability.

Any instance of disinvestments of equity shares by our Promoters or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur.

41. We have not made any alternate arrangements for meeting our capital requirements for the Objects of the Issue. Further we have not identified any alternate source of financing the Objects of the Issue. Any shortfall in raising / meeting the same could adversely affect our growth plans, business operations and financial condition.

As on date of this Draft Prospectus, we have not made any alternate arrangements for meeting our capital requirements for some of the objects of the issue. We meet our capital requirements through our bank finance, debts, owned funds and internal accruals. Any shortfall in our net owned funds, internal accruals and our inability to raise debt in future would result in us being unable to meet our capital requirements, which in turn will negatively affect our financial condition and results of operations. Further we have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this offer or any shortfall in the issue proceeds may delay the implementation schedule and could adversely affect our growth plans. The fund requirement and deployment mentioned in the Objects of this Issue have not been appraised by any monitoring agency.

We intend to use fresh Issue Proceeds towards incremental working capital requirements. We intend to deploy the Net Issue Proceeds in Financial Year 2019-20 and such deployment is based on certain assumptions and strategy which our Company believes to implement in future. The funds raised from the fresh Issue may remain idle on account of change in assumptions, market conditions, strategy of our Company, etc., For further details on the use of the Issue Proceeds, please refer chapter titled "Objects of the Issue" beginning on page 64 of this Draft Prospectus. The deployment of funds for the purposes described above is at the discretion of our Company's Board of Directors. The fund requirement and deployment is based on internal management estimates and has not been appraised by any monitoring agency. Accordingly, within the parameters as mentioned in the chapter titled "Objects of the Issue" beginning on page 64 of this Draft Prospectus, the management will have flexibility in applying the proceeds received by our Company from the Issue. The deployment of funds in the project is entirely at our discretion, based on the parameters as mentioned in the chapter titled "Objects of the issue".

The fund requirement and deployment, as mentioned in the "Objects of the Issue" beginning on page 64 of this Draft Prospectus is based on the estimates of our management and has not been appraised by any bank or financial institution or any other independent agency. These fund requirements are based on our current business plan. We cannot assure that the current business plan will be implemented in its entirety or at all. In view of the highly competitive and dynamic nature of our business, we may have to revise our business plan from time to time and consequently these fund requirements. The deployment of the funds as stated under chapter "Objects of the Issue" is at the discretion of our Board of Directors and is not subject to monitoring by any external independent agency. Further, we cannot assure that the actual costs or schedule of implementation as stated under chapter "Objects of the Issue" will not vary from the estimated costs or schedule of implementation. Any such variance may be on account of one or more factors, some of which may be beyond our control. Occurrence of any such event may delay our business plans and/or may have an adverse bearing on our expected revenues and earnings.

EXTERNAL RISKS

Industry Risks:

44. *Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.*

Our business and industry are regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended/ changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

45. *Malpractices by some players in the industry affect overall performance of emerging Companies.*

The industry in which our Company operates is subject to risk associated with unethical business practices such as unethical marketing, dishonest advertising, questionable pricing practices, inaccurate claims with regards to safety and efficacy of the product etc. Consumers' attitude toward the industry today is dominated by a sense of mistrust, paving a way for regulators for stricter entry barriers and introduction of code of conducts; making the entire industry environment regulated and controlled. Malpractices by some players in the industry affects the overall performance of the emerging Companies like our as the industry norms are applicable to all at parity. Any unethical business practices by any industry player or intermediary may impact our business and results of operations.

Other Risks:

46. *Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws, may adversely affect our business and financial performance.*

Our business and financial performance could be adversely affected by unfavorable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations applicable to us and our business. Please refer to "Key Industry Regulations and Policies" beginning on page 98 for details of the laws currently applicable to us. There can be no assurance that the Government of India may not implement new regulations and policies which will require us to obtain approvals and licenses from the Government of India and other regulatory bodies or impose onerous requirements and conditions on our operations. Any such changes and the related uncertainties with respect to the applicability, interpretation and implementation of any amendment to, or change to governing laws, regulation or policy in the jurisdictions in which we operate may have a material adverse effect on our business, financial condition and results of operations. Any unfavorable changes to the laws and regulations applicable to us could also subject us to additional liabilities. GST has been implemented with effect from July 1, 2017 and has replaced the indirect taxes on goods and services such as central excise duty, service tax, central sales tax, state VAT and surcharge currently being collected by the central and state governments. The GST is expected to increase tax incidence and administrative compliance. Given the limited availability of information in the public domain concerning the GST, we are unable to provide any assurance as to the tax regime following implementation of the GST. The implementation of this new structure may be affected by any disagreement between certain state Governments, which could create uncertainty. Any future amendments may affect our overall tax efficiency, and may result in significant additional taxes becoming payable. If such tax laws, rules and regulations are amended, new adverse laws, rules or regulations are adopted or current laws are interpreted adversely to our interests, the results could increase our tax payments (prospectively or retrospectively) and/or subject us to penalties. Further, changes in capital gains tax or tax on capital

market transactions or sale of shares could affect investor returns. As a result, any such changes or interpretations could have an adverse effect on our business and financial performance.

47. Any downgrading of India's debt and sovereign rating by an independent may harm our ability to raise financing.

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rate and other commercial terms at which such additional financing may be available. This could have adverse effect on our business and future financial performance, its ability to obtain financing for capital expenditures and the price of our Equity Shares.

48. Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

49. Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

50. Natural calamities could have a negative impact on the Indian economy and cause our Company's business to suffer.

India has experienced natural calamities such as earthquakes, tsunami, floods etc. In recent years, the extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

51. Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

52. *Civil disturbances, extremities of weather, regional conflicts and other political instability may have adverse effects on our operations and financial performance*

Certain events that are beyond our control such as earthquake, fire, floods and similar natural calamities may cause interruption in the business undertaken by us. Our operations and financial results and the market price and liquidity of our equity shares may be affected by changes in Indian Government policy or taxation or social, ethnic, political, economic or other adverse developments in or affecting India.

53. *The price of our Equity Shares may be volatile, or an active trading market for our Equity Shares may not develop.*

Prior to this Issue, there has been no public market for our Equity Shares. Our Company and the Lead Manager have appointed [•] as Designated Market Maker for the equity shares of our Company. However, the trading price of our Equity Shares may fluctuate after this Issue due to a variety of factors, including our results of operations and the performance of our business, competitive conditions, general economic, political and social factors, the performance of the Indian and global economy and significant developments in India's fiscal regime, volatility in the Indian and global securities market, performance of our competitors, the Indian Capital Markets and Finance industry, changes in the estimates of our performance or recommendations by financial analysts and announcements by us or others regarding contracts, acquisitions, strategic partnership, joint ventures, or capital commitments.

54. *There is no guarantee that the Equity Shares issued pursuant to the Issue will be listed on the EMERGE Platform of "NSE" in a timely manner, or at all.*

In accordance with Indian law and practice, permission for listing and trading of the Equity Shares issued pursuant to the Issue will not be granted unless the post issue formalities are completed after the Equity Shares have been issued. Approval for listing and trading will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the EMERGE Platform of "NSE". Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

55. *Conditions in the Indian Securities market may affect the price or liquidity of the Equity Shares.*

Indian stock exchanges have, in the past, experienced problems that have affected the market price and liquidity of the securities of Indian companies, such as temporary exchange closures, broker defaults, settlement delays and strikes by brokers. In addition, the governing bodies of the Indian stock exchanges have from time to time restricted securities from trading, limited price movements and increased margin requirements. Further, disputes have occurred on occasion between listed companies and the Indian stock exchanges and other regulatory bodies that, in some cases, have had a negative effect on market sentiment. If similar problems occur in the future, the market price and liquidity of the Equity Shares could be adversely affected.

SUMMARY:

The outlook for the global economy has darkened. Global financing conditions have tightened, industrial production has moderated, trade tensions remain elevated and some large emerging market and developing economies have experienced significant financial market stress. Faced with these headwinds, the recovery in emerging market and developing economies has lost momentum. Downside risks have become more acute and include the possibility of disorderly financial market movements. More frequent severe weather events would raise possibility of large swings in international food prices, which could deepen poverty. In this difficult environment, it is of paramount importance for emerging market and developing economies to rebuild policy buffers while laying a stronger foundation for future growth by boosting human capital, promoting trade integration and addressing challenges associated with informality.

Introduction

The Gems and Jewellery sector plays a significant role in the Indian economy, contributing around 7 per cent of the country's GDP and 15 per cent to India's total merchandise exports. It also employs over 4.64 million workers and is expected to employ 8.23 million by 2022. One of the fastest growing sectors, it is extremely export oriented and labour intensive. Moreover, India exports 75 per cent of the world's polished diamonds, as per statistics from the Gems and Jewellery

Export promotion Council (GJEPC). India's Gems and Jewellery sector has been contributing in a big way to the country's foreign exchange earnings (FEEs). The Government of India has viewed the sector as a thrust area for export promotion. The Indian government presently allows 100 per cent Foreign Direct Investment (FDI) in the sector through the automatic route.

Also, the Government of India has permitted 100 per cent Foreign Direct Investment (FDI) in the sector under the automatic route. As of January 2018, the Reserve Bank of India (RBI) has increased the scope of the gold-monetisation scheme by allowing charitable institutions and government entities to deposit gold, which is expected to boost deposits over the coming months. The Bureau of Indian Standards (BIS) has revised the standard on gold hallmarking in India from January 2018, to include a BIS mark, purity in carat and fitness as well as the unit's identification and the jeweller's identification mark on gold jewellery. The Goods and Services Tax (GST) and monsoon will steer India's gold demand going forward.

Investment / Developments

The Gems and Jewellery sector is witnessing changes in consumer preferences due to adoption of western lifestyle. Consumers are demanding new designs and varieties in jewellery, and branded

jewellers are able to fulfil their changing demands better than the local unorganised players. Moreover, increase in per capita income has led to an increase in sales of jewellery, as jewellery is a status symbol in India. The cumulative Foreign Direct Investment (FDI) inflows in diamond and gold ornaments in the period April 2000 – June 2018 were US\$ 1.15 billion, according to Department of Industrial Policy and Promotion (DIPP).

Some of the key investments in this industry are listed below:

Deals worth Rs 8,000 crore (US\$ 1.19 billion) were made at the Indian International Jewellery Show held in August 2018.

Companies such as PC Jewellers, PNG Jewellers, Popley and Sons, are planning to introduce a virtual-reality (VR) experience for their customers. The customer will have to wear a VR headset, through which they can select any jewellery, see the jewellery from different angles and zoom on it to view intricate designs.

Government Initiatives

The Bureau of Indian Standards (BIS) has revised the standard on gold hallmarking in India from January 2018. The gold jewellery hallmark will now carry a BIS mark, purity in carat and fitness as well as the unit's identification and the jeweller's identification mark. The move is aimed at ensuring a quality check on gold jewellery.

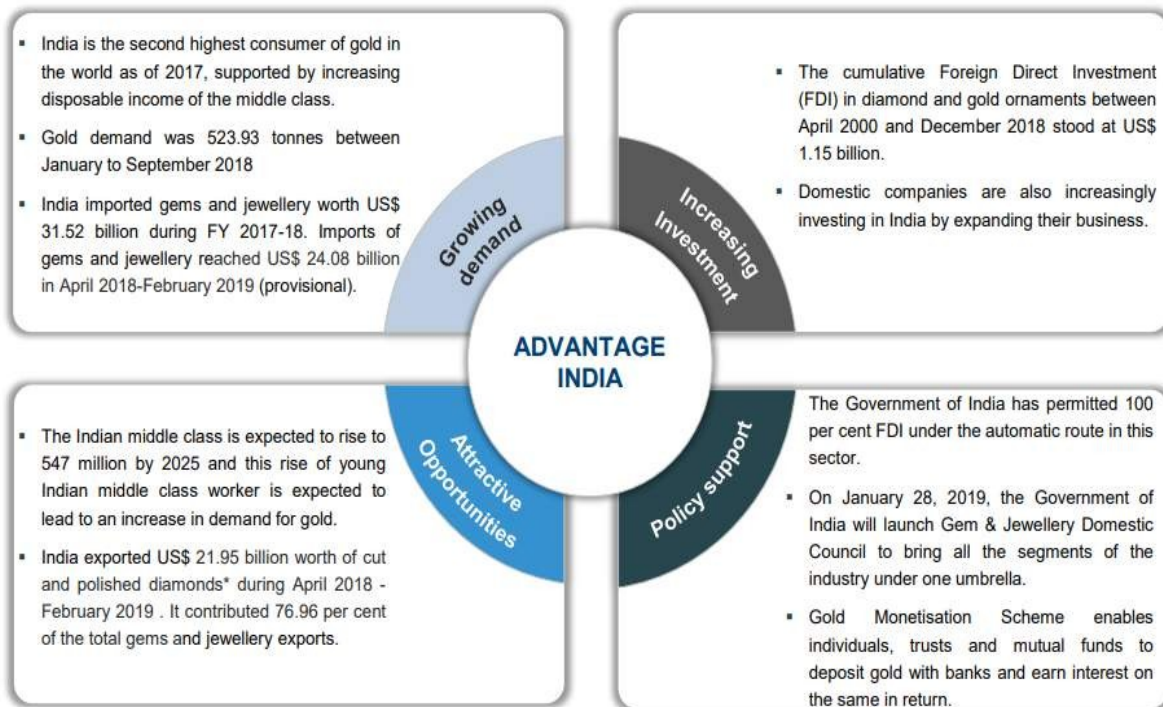

The Gems and Jewellery Export Promotion Council (GJEPC) signed a Memorandum of Understanding (MoU) with Maharashtra Industrial Development Corporation (MIDC) to build India's largest jewellery park in at Ghansoli in Navi-Mumbai on a 25 acres land with about more than 5000 jewellery units of various sizes ranging from 500-10,000 square feet. The overall investment of Rs 13,500 crore (US\$ 2.09 billion).

Gold Monetisation Scheme enables individuals, trusts and mutual funds to deposit gold with banks and earn interest on the same in return.

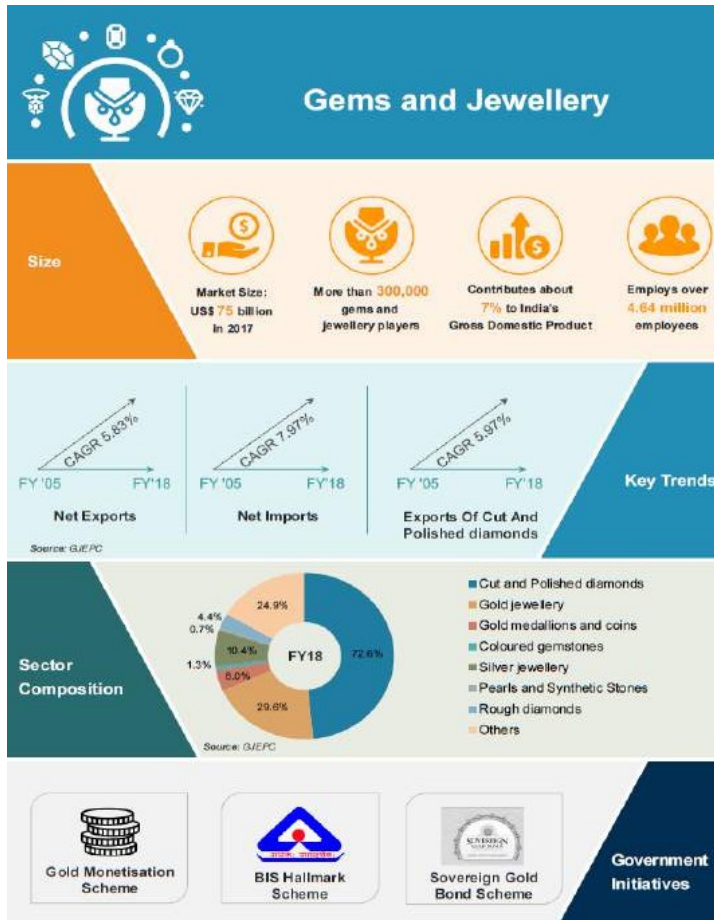

The Road Ahead

In the coming years, growth in Gems and Jewellery sector would be largely contributed by the development of large retailers/brands. Established brands are guiding the organised market and are opening opportunities to grow. Increasing penetration of organised players provides variety in terms of products and designs. Online sales are expected to account for 1-2 per cent of the fine jewellery segment by 2021-22. Also, the relaxation of restrictions of gold import is likely to provide a fillip to the industry. The improvement in availability along with the reintroduction of low cost gold metal loans and likely stabilisation of gold prices at lower levels is expected to drive volume growth for jewellers over short to medium term. The demand for jewellery is expected to be significantly supported by the recent positive developments in the industry.

INFRASTRUCTURE FACILITIES FOR RAW MATERIALS AND UTILITIES LIKE WATER, ELECTRICITY ETC.

RAW MATERIAL

The raw material is Gold and Precious stones. The major purchase is of Gold and its price fluctuates on daily basis. The rates quoted by various agencies are considered and purchases are affected through Banking Channel on the lowest available prices. At the end of each day we endeavor to purchase the same amount of gold in Rupee terms that was sold in our showroom that day. Therefore, if the price of gold increases, we purchase less volume of gold compared with the volume of gold sold and vice versa. This practice helps to mitigate the risk of changes in gold prices.

WATER:

As we are in trading activity, water is required for drinking and sanitation purpose only.

ELECTRICITY, POWER AND FUEL:

Our existing power requirement for the administrative office is catered from "Torrent Power Limited". Our sanctioned power load is 4.00 KW and our existing consumption is approximately 1,041 units per month.

(D) Restrictions on Foreign Ownership of Indian Securities

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 (“FEMA”). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India (“RBI”) and Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“DIPP”).

The Government of India, from time to time, has made policy pronouncements on Foreign Direct Investment (“FDI”) through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“DIPP”), has issued consolidated FDI Policy Circular of 2017 (“FDI Policy 2017”), which is effective from August 28, 2017, consolidates and supersedes all previous press notes, press releases and clarifications on FDI Policy issued by the DIPP that were in force. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy 2017 will be valid until the DIPP issues an updated circular.

The Reserve Bank of India (“RBI”) also issues Master Circular on Foreign Investment in India every year. Presently, FDI in India is being governed by Master Circular on Foreign Investment dated January 4, 2018 as updated from time to time by RBI. In terms of the Master Circular, an Indian company may issue fresh shares to people resident outside India (who is eligible to make investments in India, for which eligibility criteria are as prescribed). Such fresh issue of shares shall be subject to inter-alia, the pricing guidelines prescribed under the Master Circular. The Indian company making such fresh issue of shares would be subject to the reporting requirements, inter-alia with respect to consideration for issue of shares and also subject to making certain filings including filing of Form FC-GPR.

Under the current FDI Policy of 2017, foreign direct investment in micro and small enterprises is subject to sectoral caps, entry routes and other sectoral regulations. At present 100% foreign direct investment through automatic route is permitted in the sector in which our Company operates. Therefore, applicable foreign investment up to 100% is permitted in our company under automatic route.

In case of investment in sectors through Government Route, approval from competent authority as mentioned in Chapter 4 of the FDI Policy 2017 has to be obtained by the Company.

The transfer of shares between an Indian resident to a non-resident does not require the prior approval of the RBI, subject to fulfilment of certain conditions as specified by DIPP/RBI, from time to time. Such conditions include: (i) where the transfer of shares requires the prior approval of the Government as per the extant FDI policy provided that: a) the requisite approval of the Government has been obtained; and b) the transfer of shares adheres with the pricing guidelines and documentation requirements as specified by the Reserve Bank of India from time to time.; (ii) where the transfer of shares attract SEBI (SAST) Regulations subject to the adherence with the pricing guidelines and documentation requirements as specified by Reserve Bank of India from time to time.; (iii) where the transfer of shares does not meet the pricing guidelines under the FEMA, 1999 provided that: a) The resultant FDI is in compliance with the extant FDI policy and FEMA regulations in terms of sectoral caps, conditionalities (such as minimum capitalization, etc.), reporting requirements, documentation etc.; b) The pricing for the transaction is compliant with the specific/explicit, extant and relevant SEBI regulations/guidelines (such as IPO, Book building, block deals, delisting, exit, open offer/substantial acquisition/SEBI SAST); and Chartered Accountants Certificate to the effect that compliance with the relevant SEBI regulations/guidelines as indicated above is attached to the form FC-TRS to be filed with the AD bank and iv) where the investee company is in the financial sector provided that: a) Any ‘fit and proper/due diligence’ requirements as regards the non-resident investor as stipulated by the respective financial

sector regulator, from time to time, have been complied with; and b) The FDI policy and FEMA regulations in terms of sectoral caps, conditionalities (such as minimum capitalization, pricing, etc.), reporting requirements, documentation etc., are complied with. As per the existing policy of the Government of India, OCBs cannot participate in this Issue and in accordance with the extant FDI guidelines on sectoral caps, pricing guidelines etc. as amended by Reserve bank of India, from time to time. Investors are advised to confirm their eligibility under the relevant laws before investing and / or subsequent purchase or sale transaction in the Equity Shares of Our Company. Investors will not offer, sell, pledge or transfer the Equity Shares of our Company to any person who is not eligible under applicable laws, rules, regulations, guidelines. Our Company, the Underwriters and their respective directors, officers, agents, affiliates and representatives, as applicable, accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire Equity Shares of our Company.

INVESTMENT CONDITIONS/RESTRICTIONS FOR OVERSEAS ENTITIES

Under the current FDI Policy 2017, the maximum amount of Investment (sectoral cap) by foreign investor in an issuing entity is composite unless it is explicitly provided otherwise including all types of foreign investments, direct and indirect, regardless of whether it has been made for FDI, FPI, NRI/OCI, LLPs, FVCI, Investment Vehicles and DRs under Schedule 1, 2, 3, 6, 7, 8, 9, and 11 of FEMA (Transfer or Issue of Security by Persons Resident outside India) Regulations, 2017.
